6.								
7.								

[A] Mixing ratio of coating, reducer, retarder, catalyst, hardener, additive, etc. as applied.
[B] Also known as **Coating VOC**.
[C] Also known as **Material VOC**. Alternatively, Coating VOC may be used to calculate ROC emissions, but this calculation overestimates the actual emissions.
[D] VOC limits (or, alternatively vapor pressure limits for strippers) as specified in Rule 456, Sections 301, 302, 304, including materials under the “low usage” exemption.
