Subject: Rule 902

Kevin –

I have a consensus that we are able to move forward with the exception of contacting an Officer when we want to end a notification. The scenarios of “what will happen if we are on a weekend job, or a night time job?” Notifying for a one day job on a weekend is common. If we get there and the General Contractor is not ready for us what would we do?

If you have any answers for this scenario please let me know.

Thank you,

John Kimmel

Kevin –

I agree with the changes that you sent to me. I agree that those will be the best to accommodate all people involved.

Thank you,

John Kimmel
