

WE WANT YOUR FEEDBACK!

Join us for a
VIRTUAL COMMUNITY MEETING
on
Thursday, October 1, 2020
6:00pm - 8:00pm

The Sac Metro Air District will be discussing its Year 3 community recommendation to the California Air Resources Board for future Community Air Protection (CAP) communities. The CAP program focuses on underserved communities most impacted by air pollution. Please join us to learn more about the CAP program and help us better understand your community.

Attend the meeting via ZOOM:

1. Click: [Join Zoom Meeting](#) or use the following link
<https://zoom.us/j/91065410751?pwd=TXJOZVpOcGdMMzgyNjBXY3dpR1pVZz09>
2. You will be prompted to either download or launch the Zoom application.
3. Meeting ID: **910 6541 0751**
Password: **693821**

Or call into the meeting:

1. Dial **+1 (408) 638-0968** or
+1 (669) 900-6833
2. When prompted, enter the:
Meeting ID: **910 6541 0751**
Password: **693821**

QUESTIONS?

Please contact Marina Franceschi at the Sacramento Metropolitan Air Quality Management District for more information by emailing mfranceschi@airquality.org or calling (916) 874-4844.

AirQuality.org/CAP

Background Information:

The goal of the CAP program is to reduce exposure in communities most impacted by air pollution through additional monitoring, local solutions and incentive projects. This meeting is intended for community-based organizations or non-profits and residents who would like to learn about the state CAP program in Sacramento and to provide feedback to the District on Year 3 new community recommendations.

In this meeting, the District will share:

- How the Community Air Protection program can help your community
- About the District's community recommendation process and how you can provide feedback on new communities
- The community self-nomination process

This meeting will be recorded, and the meeting recording along with all meeting materials will be posted on the District website.

Learn more about the CAP Program by visiting: www.airquality.org/CAP

Thank you, and we hope to see you there!
