Subject:

Petition for Regular Variance (Var. No. 2017-005)
CleanWorld SATS Biodigester, LLC.
Equipment Location:
8550 Fruitridge Road
Sacramento, CA

Summary of Agenda Item:

CleanWorld SATS Biodigester, LLC. is petitioning for a regular variance from Permit to Operate 23433, Conditions No. 9 and 12. Petitioner operates a biogas flare that is used to burn excess biogas for its facility and requests relief from Condition No. 9 to run the flare at a lower minimum combustion temperature than the minimum temperature of 1400°F until the new authority to construct is issued. In addition, the applicant is requesting relief from Condition No. 12 to allow biogas to passively vent into the atmosphere until the tanks can be upgraded.

Comments: Members of the public may submit comments at or before the hearing. The variance petition is available for review in the SMAQMD offices.
