City of Folsom – Community Meeting with Sac Metro Air District

Attention Folsom Residents:

Please join us for a community meeting with the Sacramento Metropolitan Air Quality Management District (Sac Metro Air District) to discuss the need for a new per capita fee necessary to support the District's air quality and climate programs and to pursue opportunities for new clean air and future mobility projects in Folsom.

District staff will discuss how this fee will give the agency the opportunity to leverage local resources and bring additional state funds to provide clean air, low-carbon transportation projects to the residents of Folsom and the region. For example, the District can help Folsom acquire new zero emission electric school buses to replace existing polluting school buses.

Councilmember Roger Gaylord, who represents the City of Folsom on the Sac Metro Air District Board of Directors, will be in attendance.

When:

Thursday, September 12 at 6:30 p.m.

Where:

Folsom Community Center
52 Natoma Street
Folsom, CA

Equipment on Display:

There will be an electric school bus and other technologies on display.
