

Proposed Awards

2022 Grant Solicitation Awards

Summary

The Sac Metro Air District had over \$22 million in mobile source incentive funding to improve air quality in Sacramento. This funding was made available through the 2022 Community Air Quality Grant Solicitation and has now been fully allocated.

The application period opened on November 1, 2022, and closed on June 30, 2023. Projects included zero-emission heavy-duty vehicle replacements, school bus replacements, farm equipment replacements, low-carbon infrastructure installations, and other innovative projects.

Priority was given to projects located in Disadvantaged Communities (DACs), AB 1390 designated areas, projects that promoted zero-emission technology (i.e., electric and hydrogen), and projects that provided swift emission reductions to the community. In addition, small fleets (≤ 10 vehicles) received priority if the application was submitted before December 31, 2022.

Awarded applicants entered into a funding agreement with the Sac Metro Air District. Funding of projects is contingent on program-specific requirements. If the award cannot be negotiated and executed promptly, staff may move funding to other projects. Most agreements have a term of 3-10 years with annual reporting requirements and penalties for non-compliance. Projects not selected for funding will remain on the pending list for future funding opportunities.

List of Proposed Awards

The list of proposed awards for the 2022 Grant Solicitation is shown in the table below. This table will be updated periodically as applications are submitted, reviewed, and selected. Please note that the table is subject to change. Staff reserves the right to modify the funding or scope of the awards as needed to meet program requirements and/or community benefits.

Awardees will be contacted by a Program Manager to complete the award process. If you have any comments or questions, please contact us at LEVIP@airquality.org (<mailto:LEVIP@airquality.org>).

Company Name: Project Address:

Company Name	Project Address	Proposed Funding	Description	Project Manager
Aaron Beaver Farms	14420 CA-160, Walnut Grove, CA 95690	\$690,649	1 Ag Tractor Replacement and 1 Excavator Replacement	Oli Barragan
Allied Waste Services of North America, LLC	3326 Fitzgerald Rd, Rancho Cordova, CA 95742	\$1,204,896	8 EV Refuse Truck Replacements and Supporting Infrastructure	Kristian Damkier
