

Community Air Pollution Identification and Concerns

The South Sacramento – Florin Community was selected to implement a community air monitoring program. The map of the general community area approved by the California Air Resources Board (CARB) is provided. Steering Committee members are being asked to assist in the finalization of the South Sacramento – Florin community boundaries and identify areas of concern. This information will be discussed at the next Steering Committee meeting.

Please complete the following:

1. If you think the community boundary lines should be modified, propose a new community boundary by drawing lines around areas immediately outside of the selected general area. Please explain your rationale for the modification.
2. Mark on the map with the following indicators to show the areas you are most concerned with as it relates to air quality. Explain your concern.

Indicator	Air Pollution Concern
A	
B	
C	
D	
E	
F	
G	
H	
I
