

FORM AGT100

SUPPLEMENTAL FORM FOR GASOLINE STORAGE TANKS

Instructions:

Include all **gasoline** storage tanks having a capacity equal to, or greater than, 250 gallons. Do not include tanks storing diesel fuel.

Tank Capacity (in gallons)	Annual Throughput (in gallons)	Tank equipped with a compliant fill pipe?*	Tank Type (check one)
		<input type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Aboveground <input type="checkbox"/> Underground
		<input type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Aboveground <input type="checkbox"/> Underground
		<input type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Aboveground <input type="checkbox"/> Underground
		<input type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Aboveground <input type="checkbox"/> Underground
		<input type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Aboveground <input type="checkbox"/> Underground
		<input type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Aboveground <input type="checkbox"/> Underground

***Note: A compliant fill pipe is a fill pipe that meets one of the following requirements:**

- **For top liquid loading tanks:** Any fill pipe which has the discharge opening entirely submerged when the liquid level is 6 inches above the bottom of the tank.
- **For side liquid loading tanks:** Any fill pipe which has the discharge opening entirely submerged when the liquid level is 18 inches above the bottom of the tank.
