

**SACRAMENTO METROPOLITAN AIR QUALITY  
MANAGEMENT DISTRICT**

**For agenda of: February 24, 2005**

To: Board of Directors  
Sacramento Metropolitan Air Quality Management District

From: Larry Greene  
Air Pollution Control Officer

Subject: **Update on the District's Participation in the Annual Capitol-  
to-Capitol Trip**

**Recommendation:**

This item is submitted for your information.

**Background:**

The Capitol to Capitol events sponsored by the Sacramento Metropolitan Chamber of Commerce are important opportunities to communicate with legislators and staff in Washington D.C. about issues that are important to the Sacramento Region. They also are excellent opportunities for networking between the business, regulatory, legislative and non-profit communities in the region.

The Air Quality Team once again has some significant issues to take forward on the trip. The latest draft is attached. These will be finalized over the next several weeks and approved by the Chamber for inclusion in the master list of issues.

Respectfully submitted,

Larry Greene  
Air Pollution Control Officer
