## Outreach Strategies

#### Participate in Outreach Events Strategy 0-1

#### Concern Category

#### Strategy Type

#### Strategy

Participate in Events

#### Actions

Establish a regular presence at events in the South Sacramento-Florin community:

- . Create a Calendar of Events.
- Distribute educational materials on air quality to inform residents about health impacts and available resources.
- Collect community input by administering short air quality surveys to better understand local concerns and needs.
- Track outreach activities by logging attendance, types of materials distributed, and community interactions at each event.
- · Create our own event.

#### Goals (Quick)

 Expand community awareness of air pollution and protective actions by establishing a regular presence at community events, building strong relationships with residents, and becoming a trusted source for air quality education and resources.

#### Estimated Timeline(s)

- 2025: Attend at least 6 community events to pilot the outreach approach and establish a presence; host our first own event
- 2026-2027: Attend up to 8 community events annually to maintain consistent engagement and expand outreach efforts; host our own event
- 2027-2031: Attend at least 8 community events annually with a goal of becoming a regular and trusted resource for air quality education

#### **Tracking Metrics**

- . W of events attended
- · # of types of educational materials distributed
- . # of attendance at event (estimated)
- # of air quality surveys completed
- # of social media or website visits driven by QR codes or floors
