

For Item 4.a: Vote on Portable Air Monitoring Lab Location

Action: Vote to recommend placing the Portable Air Monitoring Laboratory on 34th Avenue, North of Sacramento Executive Airport

Site Information:

- Most viable location based on all sites visited
- Nearby one of the committee's suggested locations, City Corporation Yard
- Just North of the Sacramento Executive Airport
- Viable power option: From the existing electrical panel, may not require trenching
- Electrical installation expected to be less than \$11,000
- Secured location, accommodate the large footprint

Below are two photos for your references:

- 1) Location represented by a red arrow

- 1) Location zoomed in to the site with an orange rectangle representing the general area where the Portable Air Monitoring Laboratory would be placed.
