SAC METRO AIR DISTRICT
CLEAN AIR FOR ALL

SOUTH SACRAMENTO- FLORIN CERP FAQS

WHAT IS THE COMMUNITY EMISSIONS REDUCTION PLAN (CERP)?

The plan is a guide to lower air pollution and protect people's health in South Sacramento-Florin. This plan focuses on local pollution sources and actions so that we can improve the air quality.

WHY IS SOUTH SACRAMENTO-FLORIN PART OF THIS PROGRAM?

The State selected the region as part of California's Community Air Protection Program (CAP) in 2018. In 2019, the region approved to create a Community Emissions Reduction Plan.

WHO HELPED CREATE THE PLAN?

The Community Steering Committee (CSC) created the goals and strategies in the plan. The Air District helped turn the plan into clear goals and actions. Current CSC members are listed at www.AirQuality.org/CAP

WHAT TYPES OF STRATEGIES ARE IN THE DRAFT PLAN?

The plan includes 28 strategies to reduce emissions and exposure to air pollution in four categories: Urban Planning and Mobile, Residential, Commercial, and Outreach.

Steering Committee members share CERP information with residents at the Sweet Potato Festival on March 22, 2025.

HOW WAS COMMUNITY INPUT USED?

The CSC and its subcommittees led the CERP process by:

- Sharing information about the program and collecting feedback from the community
- Identifying the air quality issues that matter most
- Setting goals to reduce air pollution and exposure in the community
- Choosing actions to help reduce pollution and protect health
- Deciding how progress will be tracked and when actions will be carried out
- Clarifying who is responsible for putting the plan into action

Explore an interactive summary of the CERP and strategies in the Air District's Story Map at: bitly/4qun9uw
