

## **Draft Ideas for CERP Priority Goals**

### **1. Urban Planning**

#### **Quick Win Goal (2025-2026):**

Improve transparency and community oversight of land-use decisions that contribute to air pollution.

#### **Medium-Term Goal (2026–2028):**

Reduce the approval and siting of high-emission facilities near residential areas, schools, and parks.

#### **Ambitious But Doable Goal (2028–2031):**

Prevent further concentration of industrial pollution and heavy diesel traffic in environmental justice communities in South Sacramento–Florin.

## **Draft Ideas for CERP Priority Goals**

### **2. Residential Sources**

#### **Quick Win Goal (2025-2026):**

Reduce residential exposure to indoor air pollutants.

#### **Medium-Term Goal (2026–2028):**

Reduce wood-burning emissions and promote residential electrification in overburdened neighborhoods.

#### **Ambitious But Doable Goal (2028–2031):**

Improve air quality in multi-family housing located near major freeways and trucking corridors.

## **Draft Ideas for CERP Priority Goals**

### **3. Mobile Sources**

#### **Quick Win Goal (2025-2026):**

Reduce air pollution emissions near schools and residential areas, including diesel emissions.

#### **Medium-Term Goal (2026–2028):**

Decrease truck traffic through residential corridors and school zones, including diesel trucks.

#### **Ambitious But Doable Goal (2028–2031):**

Increase the adoption of zero-emission vehicles (ZEVs) and charging infrastructure in South Sacramento–Florin.

## **Draft Ideas for CERP Priority Goals**

### **4. Commercial Sources**

Encourage small businesses to adopt pollution reduction practices.

### **5. Health and Education**

Expand community awareness of air pollution and protective actions.

### **6. Industrial Sources**

Enhance transparency around industrial emissions and enforcement.
