ANNOUNCEMENTS

Members of the public may participate in the meeting in-person, by video conference via Zoom, conference line, and by submitting written comments electronically by email at boardclerk@airquality.org.

Comments submitted will be delivered to the Board of Directors by staff. Public comments regarding matters under the jurisdiction of the Board of Directors will be acknowledged by the Chairperson during the meeting. Public comments will be accepted live until the adjournment of the meeting, distributed to the Board of Directors, and included in the record.

Submit public comments via email to: boardclerk@airquality.org

CALL TO ORDER/ROLL CALL

PLEDGE OF ALLEGIANCE

BOARD CLERK ANNOUNCEMENTS

BROWN ACT

CONSENT CALENDAR

1. January 25, 2024 Board of Directors Meeting Minutes

Recommendation: Approve the January 25, 2024 Board of Director Meeting Minutes.

2. November 9, 2023 Special Joint Board of Directors Meeting Minutes

Recommendation: Approve the November 9, 2023 Special Joint Board of Directors

Meeting minutes.

3. Contract Authority for Comprehensive Climate Action Plan and Status Report

Recommendation: Authorize the Executive Director/APCO to execute a three-year contract

with the successful respondent to the Sac Metro Air District (District) competitive request for proposals for the development of a Comprehensive Climate Action Plan and Status Report consistent with the requirements of the Climate Pollution Reduction Grant program for an amount not to exceed \$361,900, and make minor revisions to the contract, in consultation with District Counsel and within the funding limits, that may be necessary to fully implement its intent.

4. Designation of District Headquarters for Agency Use Under the California Surplus Land Act

Recommendation: Adopt a resolution designating the District headquarters for "Agency's

Use", thereby exempting the sale from the provisions of the California Surplus Land Act eliminating the requirement to offer the property as surplus land to affordable housing organizations or related entities

before making it available for sale on the open market.

DISCUSSION CALENDAR

5. City of Sacramento Incentive Contract and Other Opportunities for Investments in Electrification and the Clean Energy Transition

Recommendation: Authorize the Executive Director/Air Pollution Control Officer to execute

agreements under the Low Emission Vehicle Incentive Program with the City of Sacramento for an amount not to exceed to \$3,000,000 for the purchase and installation of electric vehicle chargers associated with the City of Sacramento's EV Blueprint Project, and; receive and file a report on the next incentive solicitation totaling over \$15,000,000 for various investments in electrification and the clean energy transition including commercial lawn and garden equipment, zero-emission

6. New National Ambient Air Quality Standard for Particulate Matter

Recommendation: Receive and file an update on the new National Ambient Air Quality

infrastructure, off-road, on-road, and micro-transit vehicles.

Standard for annual PM2.5 concentration.

7. Temporary Appointment of a CalPERS Retiree as Interim Director of Administrative Services

Recommendation: Adopt a resolution to appoint Jamille Moens as a retired annuitant on an interim basis to the District's vacant position of Director of Administrative

Services under the California Public Employees' Retirement System (CalPERS) exception to the 180-day wait period, per Government Code

§ 7522.56 and § 21221(h).

8. Appointment of Board Members to the Budget and Personnel Committee of the Board

Recommendation: Pass a motion selecting and appointing two Board members in addition

to the Chair, Vice Chair and Past Chair to the Budget and Personnel

Committee.

9. Hearing Board Vacancies Notifications

Recommendation: Receive and file an informational report notifying the Board that both the

Medical and Engineering Profession positions of the Hearing Board are

vacant as of January 23, 2024.

AIR POLLUTION CONTROL OFFICER'S REPORT

10. Air Pollution Control Officer Presentation

Recommendation:

Receive and file a presentation from the Air Pollution Control Officer, including the following topics: Facilities Update; Capitol-to-Capitol; In the Community - Lunar New Year Celebration; and US EPA Regional Administrator Visit to Sacramento.

BOARD IDEAS, COMMENTS AND AB 1234 REPORTS

PUBLIC COMMENT

ADJOURN

Agenda Revision: This agenda may be revised. A final agenda will be posted on the website (www.airquality.org) and at the meeting site 72 hours in advance of the meeting. Materials submitted within 72 hours of the meeting and after distribution of the agenda packets will be made available on the Sac Metro Air District website subject to staffs ability to post the documents prior to the meeting. The order of the agenda items are listed for reference and may be taken in any order deemed appropriate by the Board of Directors. The agenda provides a general description and staff recommendation; however, the Board of Directors may take action other than what is recommended.

<u>Testimony:</u> The Board of Directors welcomes and encourages participation in Board meetings. When it appears there are several members of the public wishing to address the Board on a specific item, at the outset of the item the Chair of the Board will announce the maximum amount of time that will be allowed for presentation of the testimony. Matters under the jurisdiction of the Board and not on the posted agenda may be addressed by the general public immediately prior to the close of the meeting. The Board limits testimony on matters not on the agenda to five minutes per person and not more than 15 minutes for a particular subject.

<u>Meeting Broadcast:</u> The meeting is videotaped in its entirety and will be cablecast without interruption on Metro Cable 14, the Government Affairs Channel and will be webcast at https://metro14live.saccounty.gov. This morning's meeting is being cablecast live and will be rebroadcast on Saturday, February 24, 2024 at 2:00 p.m. on Channel 14.

<u>Closed Captioning:</u> Metro Cable now provides closed captioning of the Sac Metro Air District Board meetings for the deaf and hard of hearing community. The captioning will be available on both the live and playback broadcasts on the Metro Cable television channel (Channel 14).

Assisted Listening: Assisted listening devices are available for use by the public. Please see the Clerk of the Board for further information.

Board Action: The Board of Directors may take action on any of the items listed on this agenda.

Information: Full staff reports are available for public review on the District's website (www.airquality.org), including all attachments and exhibits, or for public inspection at the District's office at 777 12th Street, Suite 300, Sacramento, CA. Copies of items prepared by staff and distributed for the first time at the meeting will be available at the back of the meeting room or may be obtained from the Board Clerk. Copies of items that were not prepared by staff may be obtained after the meeting from the Clerk. Materials related to an item on this Agenda submitted to Sac Metro Air District after distribution of the agenda packet are available for public inspection in the Clerk of the Board's office during normal business hours. For information regarding this agenda, please contact Salina Martinez, Clerk of the Sac Metro Air District Board of Directors, at 279-207-1164.

Meeting Date: 2/22/2024

Report Type: CONSENT CALENDAR

Report ID: 2024-0222-1.

Title: January 25, 2024 Board of Directors Meeting Minutes

Recommendation: Approve the January 25, 2024 Board of Director Meeting Minutes.

Rationale for Recommendation: Minutes serve as the official record of the actions that occurred at board or committee meetings. It is the Board of Directors practice to approve the meeting minutes at subsequent Board meeting.

All approved Board resolutions from the meeting are attached.

Contact: Salina Martinez, Administrative Supervisor/ Clerk of the Board, 279-207-1164

CONSENT CALENDAR

ACTION:

Patrick Hume Moved /Rich Desmond Seconded

Ayes: Sarah Aquino, Rich Desmond, Sue Frost, Patrick Hume, Patrick Kennedy, Kevin Papineau, Sergio Robles, and Donald Terry.

Absent: Bret Daniels, Eric Guerra, Caity Maple, Phil Serna, Karina Talamantes, and Mai Vang.

1. District Counsel Agreement 2024 - 2027

Recommendation: Authorize the Chair of the Board to approve a new Employment

Agreement with Kathrine Pittard for three years, ending January 31,

2027, to continue serving as District Counsel.

Authorized

2. October 26, 2023 Board of Directors Meeting Minutes

Recommendation: Approve the October 26, 2023 Board of Director Meeting Minutes.

Approved

3. Contract with Bar None Auction

Recommendation: Authorize the Executive Director/Air Pollution Control Officer to: 1)

execute a two-year contract with Bar None Auction (B NA) for salvage yard/dismantling, auctioning and salvage inspection services under the Lower-Emission Vehicle Incentive Program (LEVIP) for a total not to exceed amount of \$400,000 (\$200,000 per year), with an option to renew for two additional years in an amount not to exceed \$200,000 for each additional year, and 2) make minor revisions to the contract, in consultation with District Counsel and within the funding limits, that may

be necessary to fully implement its intent.

Authorized

4. Fiscal Year 2022-23 Annual Comprehensive Financial Report and Single Audit

Recommendation: Adopt a resolution accepting 1) the Sacramento Metropolitan Air

Quality Management District's Annual Comprehensive Financial Report for the Fiscal Year Ended June 30, 2023, and 2) the letter to the Board of Directors titled Auditor's Communication with Those

Charged with Governance.

Resolution 2024-001 Board of Directors Regular Meeting - February 22, 2024 - 6

5. Targeted Airshed Grant Memorandum of Understanding with Placer County Air Pollution Control District

Recommendation:

Authorize the Air Pollution Control Officer to 1) execute a Memorandum of Understanding (MOU) with the Placer County Air Pollution Control District (Placer County APCD) related to the administration of pass-through United States Environmental Protection Agency (EPA) grant funds designated for the Targeted Airshed Grant (TAG), 2) disburse TAG designated EPA pass-through grant funds to the Placer County APCD in accordance with the terms of the MOU, and 3) make minor changes to the MOU, in consultation with District Counsel, that may be necessary to fully implement their intent.

Authorized

6. Hearing Board Vacancies Notification

Recommendation: Receive and file an informational report notifying the Board that 1) two

Hearing Board member positions are open for recruitment, the member from the medical profession and the professional engineer member, and 2) the District has commenced the advertising and selection process for new

appointments.

Received and filed

7. Quarterly Contracts Report (October 2023 – December 2023)

Recommendation: Receive and file a report on certain contracts executed by the Air

Pollution Control Officer under the Non-Incentive Purchasing

Authority for the guarter October 2023 - December 2023.

Received and filed

8. SoftChoice Contract for Microsoft Enterprise Software License and Support

Recommendation: Authorize the Air Pollution Control Officer to 1) execute

Authorize the Air Pollution Control Officer to 1) execute an initial three-year licensing contract with SoftChoice for Microsoft Enterprise Office 365 software and support services for a total not to exceed amount of \$300,000, 2) execute up to two subsequent three-year contracts for Microsoft Enterprise Office 365 software and support services for a maximum of nine years and a total not to exceed amount of \$1,000,000, and 3) make minor revisions to the contract, in consultation with District Counsel and within the funding limits, that may be necessary to fully

implement its intent.

Authorized

9. Job Classification Update - Change Division Manager Classification Title to Director

Recommendation: Approve an administrative update to the District Classification Plan,

changing the title for the Division Manager classification to Director, and adopt an updated Unrepresented Personnel Resolution to reflect

the change in title from Division Manager to Director.

Resolution 2024-002

10. Annual Report on Entities Accepting over \$250,000 from the Low-Emission Vehicle Incentive Program

Recommendation: Receive and file an annual report identifying all individuals and

organizations accepting more than \$250,000 in incentive funding from the District within the previous five years under the Low-Emission

Vehicle Incentive Program.

Received and filed

Transportation Incentive Grants to Sierra Northern Railroad, Sacramento City Unified 11. School District, and San Juan Unified School District

Recommendation:

Authorize the Executive Director/Air Pollution Control Officer to execute the following agreements under the Low Emission Vehicle Incentive Program: 1) Sierra Northern Railway in an amount not to exceed \$14,443,500, 2) Sacramento City Unified School District in an amount not to exceed \$2,300,000, 3) San Juan Unified School District in an amount not to exceed \$1,850,335, and 4) San Juan Unified School District

amendment in an amount not to exceed \$2,112,226.

Authorized

DISCUSSION CALENDAR

Community Air Protection Program Update- Transitioning South Sacramento-Florin to 12. **Emission Reductions**

Recommendation: Receive and file an update on Assembly Bill 617 (AB 617) Community

Air Protection Program for the South Sacramento-Florin community.

Janice Lam Snyder, Monitoring, Planning and Rules Division, gave a presentation on Community Air Protection Program - Transitioning South Sacramento-Florin to Emission Reductions.

Public comment was received by Director Mai Vang. Received and filed

13. Community Air Protection Incentives Program

Recommendation: Receive and file a presentation on the Assembly Bill 617 (AB617)

Community Air Protection Incentives Program efforts, challenges

and future plans.

Jaime Lemus, Transportation and Climate Change Division, gave a presentation on the Community Air Protection Incentive Program. Received and filed

AIR POLLUTION CONTROL OFFICER'S REPORT

14. Air Pollution Control Officer Presentation

Recommendation: Receive and file a presentation from the Air Pollution Control Officer,

> including the following topics: 2023 Accomplishment; 2024 Priorities; Office Relocation Update; and EPA's New Annual PM 2.5 Standard.

Jaime Lemus, Transportation and Climate Change Division, presented the Air Pollution Control Officer report on behalf of Alberto Ayala.

BOARD IDEAS, COMMENTS AND AB 1234 REPORTS

Vice Chair Aquino provided an update on the 2023 United Nations Climate Change Conference 28th Session of the Conference of Parties (COP28) in Dubai that she attended.

PUBLIC COMMENT

ADJOURN

RESOLUTION NO. 2024 – 001

Adopted by the Sacramento Metropolitan Air Quality Management District
Board of Directors

ANNUAL COMPREHENSIVE FINANCIAL REPORT FOR THE FISCAL YEAR ENDED JUNE 30, 2023

BACKGROUND:

- A. The Sacramento Metropolitan Air Quality Management District (District) prepared its Annual Comprehensive Financial Report, inclusive of the financial statements and the notes to the financial statements, to present the District's financial condition and the results of its activities for the fiscal year ended June 30, 2023.
- B. Eide Bailly LLP (Auditor), an independent auditing firm competitively selected by the District, audited the District's FY 2022/23 financial statements in accordance with Government Auditing Standards, issued by the Comptroller General of the United States.
- C. The Auditor prepared and submitted three individual audit reports, which are included within the Annual Comprehensive Financial Report, and a letter as follows: 1) an opinion on whether the District's financial statements are presented in conformity with Generally Accepted Accounting Principles; 2) an opinion on the compliance of each major federal program and schedule of expenditures of federal awards with laws, regulations, and the terms and conditions of the federal assistance awards; 3) an opinion on internal control over financial reporting and on compliance and other matters based on an audit of financial statements, and 4) the letter titled Auditor's Communication with Those Charged with Governance.
- D. The Auditor rendered its unmodified opinion in the Independent Auditors' Report that the financial statements present fairly, in all material respects, the financial position of the District as of June 30, 2023, in conformity with Generally Accepted Accounting Principles, and that the District is substantially in compliance with laws, regulations, contracts, and grants applicable to its federal programs for the fiscal year ended June 30, 2023.
- E. There were no significant deficiencies, no material weaknesses, and no questioned costs identified by the Auditor for the fiscal year ended June 30, 2023.

BASED ON THE FACTS SET FORTH IN THE BACKGROUND, THE BOARD OF DIRECTORS RESOLVES AS FOLLOWS:

- Section 1. The Annual Comprehensive Financial Report prepared for the Fiscal Year Ended June 30, 2023, attached hereto as Exhibit A, and the letter titled Auditor's Communication with Those Charged with Governance, attached hereto as Exhibit B, are accepted.
- Section 2. Exhibits A and B are attached hereto and are a part of this resolution.

SACRAMENTO METROPOLITAN

December 20, 2023

LETTER OF TRANSMITTAL

Honorable Chair, Governing Board, and Residents of the Sacramento Metropolitan Air Quality Management District

We are pleased to present the Annual Comprehensive Financial Report (Annual Report) of the Sacramento Metropolitan Air Quality Management District (District) for the year ended June 30, 2023, which includes the independent auditor's report. The Annual Report is submitted in compliance with state law, which requires local governments to publish a complete set of audited financial statements presented in conformity with generally accepted accounting principles and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants.

The District assumes full responsibility for the completeness and reliability of the information presented in this report, based upon a comprehensive internal control framework that was established for this purpose. Since the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements. The District asserts to the best of its knowledge and belief, that this financial report is complete and reliable in all material respects.

The District's financial statements have been audited by Eide Bailly LLP, Certified Public Accountants. The goal of the independent audit is to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2023, are free of material misstatement. The independent auditors concluded, based upon the audit, there was a reasonable basis for rendering an unmodified (clean) opinion that the District financial statements for the fiscal year ended June 30, 2023, are fairly presented in conformity with accounting principles generally accepted in the United States of America. The independent auditor's report is located at the front of the financial section of this report.

The District's independent financial statement audit was part of a broader, federally mandated "Single Audit" designed to meet the Federal grantor agencies' special needs. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, including special emphasis on Federal award compliance.

Management's Discussion and Analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this Letter of Transmittal and should be read in conjunction with it.

Profile of the District

The District is one of five large air quality management districts out of a total of 35 local or regional air agencies in California. It is responsible for monitoring air pollution within the Sacramento region and for programs to reduce ambient air pollution concentrations to meet the health-based ambient air quality standards established by the state and federal governments. The District is also actively pursuing actions

to reduce greenhouse gas emissions and promote low-carbon development. The U.S. Environmental Protection Agency (EPA) has designated the District as a part of the Sacramento Federal Ozone Nonattainment Area (SFNA), which is comprised of all of Sacramento and Yolo Counties, the eastern portion of Solano County, the southern portion of Sutter County and the western slopes of El Dorado and Placer Counties up to the Sierra crest and includes four other local air districts. Roughly 63% of the SFNA's population falls within the District's boundaries.

Population in Sacramento Federal Ozone Nonattainment Area

	Population				
County	SFNA portion of the County	County ¹	SFNA/County ²	County in SFNA/Total SFNA ³	
El Dorado	159,292	189,382	84%	6.4%	
Placer	400,400	410,310	98%	16.0%	
Sacramento	1,573,364	1,573,364	100%	63.0%	
Solano	140,095	445,060	31%	5.6%	
Sutter	3,222	99,045	3%	0.1%	
Yolo	222,430	222,430	100%	8.9%	
Total	2,498,803	2,939,591	-	100.0%	

¹ The county population data is based on the 2022 California Department of Finance Population Estimates and Components of Change by County (Table E-6) https://dof.ca.gov/Forecasting/Demographics/Estimates/. It represents the population estimate as of July 2022.

Air quality in the SFNA is designated nonattainment for the federal National Ambient Air Quality Standards (NAAQS) for ozone. The region is also administratively designated for nonattainment of the particulate matter NAAQS, although technically the short-term PM2.5 and PM10 standards have been met and maintained. A redesignation is expected once the requirement for a maintenance plan for each standard is completed. A combination of many active sources of smog-precursor emissions, poor atmospheric ventilation, a capping temperature inversion, bordering mountains, and plenty of sunny days act to enhance smog formation and effectively trap pollutants in the Sacramento Valley Basin. The District Board approved a regional State Implementation Plan (SIP) for the 2008 ozone NAAQS, which projects attainment by 2024. The Plan was submitted to the EPA in 2018 and is awaiting final approval. The District is also leading the development of a SIP for the 2015 ozone NAAQS, which is slated for submittal to the EPA in late 2023. The required maintenance plans for the PM standards are in development.

Air and climate pollution emissions in the Sacramento region come from mobile, stationary, and area-wide sources. The largest contributor is the transportation sector - motor vehicles, trucks, airplanes, locomotives, and other fossil fuel combustion engines. State and federal regulations coupled with local financial incentive programs focusing on fleet modernization projects will help reduce pollution emissions and improve our air quality in the region.

The District implements a broad range of programs and strategies to combat air and climate pollution and accomplish its mission. From the development of clean air rules and enforcement of industrial emission permits to land use planning and deployment of millions of dollars in public funding for incentives for clean air projects, the annual budget serves as the foundation for the District's financial planning and controls. The Governing Board is required to adopt an annual budget by July 1 of each fiscal year. The budget is organized by fund and division and is adopted on a budgetary basis that includes encumbrances and expenditures. All annual appropriations lapse at fiscal year-end to the extent they have not been expended or encumbered. Amendments to increase the budget must be approved by the Governing Board.

The District maintains budgetary controls through both signature authority and automated budget verification. The objective of these controls is to ensure compliance with the annual appropriated budget approved by the Governing Board. As reflected in the statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management.

² The SFNA/County population percentages are based on the 2020 Census Data, which was downloaded from: https://www2.census.gov/programssurveys/decennial/2020/data/01-Redistricting_File--PL_94-171/California/_on 02/10/2022.

³ Percentage values are rounded to one decimal point.

Factors Affecting Financial Condition

This section contains information useful in assessing the District's economic condition and includes a discussion of the local economy, long-term financial planning, and major initiatives that may have a significant impact on revenues or expenditures.

Local Economy

The 2019 annual unemployment rate in Sacramento County averaged 3.8% and increased to 9.3% in 2021, due to the pandemic. As of August 2023, the unemployment rate has returned to pre-COVID levels and is approximately 4.5%. The latest published economic forecast by the California Department of Transportation for Sacramento County expects a relatively high rate of home building, positive population growth, and expanding job opportunities to contribute to a relatively fast recovery and positive outlook over the next five years.

Sacramento County is becoming an emerging hub for technology firms largely because corporations like HP, Intel, Oracle, and Apple already have prominent infrastructure in the region. Employment in the manufacturing and transportation industries has grown consistently since 2012; steady growth in these industries is forecast over the next five years. The professional and business services sector will create a major share of future jobs in Sacramento County over the next several years. Finally, the government, education, and healthcare sectors are projected to show gains through 2027. The economic forecast indicates relative stability in revenue from permit and other fees for the District; with Board approval however, continued growth in fee revenue is anticipated as a result of Consumer Price Index adjustments to help keep pace with rising costs and other fee increases to ensure full cost recovery for services.

Long-term Financial Planning

Management presents a five-year financial forecast in the budget that elevates potential internal, external, and programmatic elements that could affect revenues and expenditures. This forecast identifies a funding gap between revenues and expenditures, which will require attention by the District. The imbalance is due primarily to the rising costs of doing business, such as employee services and capital expenditures outpacing current revenue increases, new state mandates that are not adequately funded, and a legacy lack of full cost-recovery for many of the District's programs.

To address the projected funding gap in prior years, the District streamlined operations, scaled back some activities, held vacancies open, and "right-sized" funding for professional services and collaborations, resulting in a return of approximately \$4.2 million to the District's General Fund over the last three years. Going forward, the District is anticipated to be fully staffed and will work closely with the Board of Directors to implement new funding solutions necessary to attain full cost recovery, ensure the integrity of the District's clean air efforts to enable the region to remain eligible for federal transportation funding and continue to implement state low-carbon development and greenhouse gas (GHG) emission reduction programs. Fortunately, the financial reserves in the General Fund will bridge the necessary support for near-term operations until long-term fund stability is achieved.

General Fund

The District's General Fund receives revenue from a variety of sources, including permit fees paid by stationary pollution sources (e.g., local businesses equipped with technologies that rely on any kind of combustion engine); automobile registration fees collected by the State of California Department of Motor Vehicles (DMV) and distributed to air districts for motor vehicle emission reduction programs; federal, local government and state subvention funds; and local sales tax. The General Fund does not receive property tax support as is the case for some air districts.

There are a few anticipated changes that may have a moderate to significant impact on revenues over the five-year forecast. To pursue full-cost recovery and address the ongoing issue of unfunded mandates, a fee study will be initiated soon that is anticipated to inform a potential permit fee increase. In addition, District staff is actively participating in regional discussions of a new sales tax measure. In previous efforts, the District was slated to receive 2.2% of the net sales tax proceeds in the expenditures plans of prior initiatives. Staff will continue to advocate for measures that can bring additional funding to the District and the region for clean transportation projects.

Expenditures for the General Fund are expected to gradually increase to address recurring expenses such as rising labor costs, long-term pension liabilities, and non-recurring capital improvement expenditures, most notably the rehabilitation and replacement of several aging ambient air monitoring regulatory stations. The ambient air quality monitoring network is critical District infrastructure and a part of a national network. Improvements are planned for various monitoring stations over the next few years to remain in compliance with applicable federal requirements. The network is also an important foundation for additional localized monitoring under the AB 617 Community Air Protection Program (CAPP), with a new mobile air monitoring laboratory recently added to the existing air monitoring network as part of the District's AB 617 efforts.

Internal Service Fund

The District Headquarters (Covell Building) is the primary asset in the Internal Service Fund and has historically been a very stable fund. The headquarters building is about 38,000 square feet and a portion of the building is leased to a third-party tenant. The District's tenant recently submitted notice that they will be vacating the building when their lease agreements expire in FY 2023/24. Given the pending vacancy along with the anticipated changing needs for the use of space due to a new hybrid (remote and onsite) work model, the District completed a comprehensive building assessment of several alternatives. With Board support, the District will proceed to sell the current headquarters and lease or purchase a smaller HQ facility, which is better suited for our hybrid-work arrangement.

As a result, this fund may experience short-term volatility due to 1) a period of extended reduced rental income given the termination of tenant leases while a potential buyer is identified, and/or 2) enhanced liquidity from the sale of an asset.

Special Revenue Fund

The Special Revenue Fund serves to track restricted revenue sources, primarily various emission technology and community air protection incentive grants from programs like Carl Moyer and CAPP. These programs are expected to be relatively stable for the next decade since the state has committed to a continuous appropriation for them. In addition, a significant amount of new state revenue continues to be directed to the California Air Resources Board for new and existing mobile source emission reduction programs and to address the disproportionate impacts of air pollution in environmental justice communities. Unfortunately, these grants rarely cover the full cost of implementation, and other funding is used to cover the shortfall. Continuation and/or expansion of programs supported by this fund will directly depend on the availability of DMV and sales tax revenue until such time that the percentage of the grant allowed for program administration is realistic. There are no capital expenditures associated with this fund.

Major Initiatives

The FY 2023/24 District Budget was approved on May 25, 2023, and represents a status quo budget that includes funding for mission-critical programs such as attainment of the NAAQS, advancing the region's decarbonization efforts, and CAPP.

The budget also included funding to replace two of the District's major software applications (Permitting/Compliance and Transportation Incentives) and various shadow systems into a single enterprise-level solution (AiriA) to improve efficiencies, accuracy, customer service, and lower operating costs. Process improvement is expected to coincide with this software implementation and the inclusion of best practices wherever possible to optimize software utilization. The project is expected to last 18-24 months. The initial software development and implementation expense is non-recurring; however, there will be ongoing costs for annual maintenance fees.

Another new key project for the District is the Climate Pollution Reduction Grant (CPRG). CPRG is an EPA program funded by the Inflation Reduction Act for local actions that reduce greenhouse gases and associated criteria and toxic air pollution, create green jobs that strengthen the transition to a low-carbon economy, and provide tangible benefits to communities impacted by environmental injustice. The District is serving as the lead agency for the seven-county Sacramento-Roseville-Folsom Metropolitan Statistical Area under the EPA CPRG designation. As such, the District received \$1 million to develop three required deliverables — a Priority Climate Action Plan, a Comprehensive Climate Action Plan, and a Status Report. As the lead agency, the District is working with many regional partners on the various Phase 1 planning deliverables and will apply for Phase 2 implementation grants. Due to the timing of the CPRG Phase 1 award, the funding and expenditures for this grant were not included in the FY 2023/24 budget. There is the potential for significant incentive funding for the District and the region under the CPRG program in the future.

Other important initiatives include expanding regional partnerships, enhancing performance management in the hybrid work environment, and relocating the District's Headquarters.

Awards and Acknowledgments

The Government Finance Officers Association (GFOA) awarded the Certificate of Achievement for Excellence in Financial Reporting to the District for the FY 2022/23 Annual Report. In addition to receiving the award for the Annual Report, the District also received the Distinguished Budget Presentation Award for its FY 2023/24 Budget Book. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for the preparation of state and local government financial reports and budgets. This Annual Report will also be submitted to GFOA to determine its eligibility for the certificate as it is believed to also meet the requirements of the program.

The preparation of the Annual Report was made possible by the dedicated services of the finance and management staff of the District's Administrative Services Division. These members have our sincere appreciation for the contribution made in the preparation of this report.

Recognition is also given to the Governing Board for their leadership and support, and to all employees of the District who continue to improve operations to accomplish the District's mission in a fiscally responsible manner.

Respectfully submitted,

Alberto Ayala, PhD, MSE

Independent Auditor's Report

To the Board of Directors Sacramento Metropolitan Air Quality Management District Sacramento, California

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Sacramento Metropolitan Air Quality Management District (District) as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2023, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in Government Auditing Standards (Government Auditing Standards), issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Adoption of New Accounting Standard

As discussed in Note 1 to the financial statements, the District has adopted the provisions of Government Accounting Standards Board (GASB) Statement No. 96, Subscription Based Information Technology Arrangements for the year ended June 30, 2023. Accordingly, a restatement has been made to the governmental activities net position as of July 1, 2022, to restate beginning net position. Our opinions are not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing an
 opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is
 expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison information, the schedule of changes in the net OPEB liability and related ratios, the schedule of OPEB contributions, the schedule of proportionate share of the net pension liability, and the schedule of pension contributions, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The budgetary schedules and the schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the budgetary schedules and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical section but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 20, 2023, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Sacramento, California

December 20, 2023

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the District's Annual Comprehensive Annual Financial Report provides a narrative overview and analysis of the District's financial activities for the fiscal year that ended June 30, 2023. Please read this document in conjunction with the transmittal letter located in the introductory section and the District's financial statements which follow this discussion.

Financial Highlights

- The District's overall net position at June 30, 2023 was \$73.7 million, an increase of about \$1.0 million or 1.3 percent over the prior fiscal year.
- Total government-wide liabilities increased by \$13.2 million mainly due to an increase in the net pension liability and accounts payable.
- Government-wide deferred outflows of resources increased by \$5.0 million and deferred inflows decreased by \$4.1 million primarily related to pensions
- The fiscal year 2022-23 (FY 22-23) General Fund revenues exceeded expenditures by \$0.5 million. This is mainly attributable to position vacancies and fewer professional services expenditures than expected for the year.

Overview of Financial Statements

The District's Annual Comprehensive Financial Report (ACFR) is comprised of three components: 1) government-wide financial statements 2) fund financial statements, and 3) the notes to financial statements. This report also includes supplementary information intended to furnish additional detail to support the basic financial statements themselves.

Government-wide Financial Statements

The government-wide financial statements provide readers with the overall financial position and activities of the District. These financial statements include the Statement of Net Position and the Statement of Activities.

The Statement of Net Position reports the District's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as an indicator of whether the District's financial position is improving or deteriorating.

The Statement of Activities includes all current year revenues and expenses, and changes in net position, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods such as earned but unused vacation leave. In the Statement of Activities, the air quality management functions are categorized as Business Compliance, Air Monitoring, Sustainable Land Use, Clean Transportation and Mobility Innovation, and Community Health Protection.

The District reports the Proprietary Fund as an Internal Service Fund since the main source of revenue for the fund is from an internal source rather than external sources.

Fund Financial Statements

A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. Governmental funds are reported as governmental activities in the government-wide financial statements. However, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating an entity's near-term financing requirements.

Because the governmental funds focus on near-term financing requirements, it is useful to compare the governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. The Balance Sheet – Governmental Funds and the Statement of Revenues, Expenditures, and Changes in Fund Balances – Governmental Funds provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Other Information

In addition to the basic financial statements and accompanying notes, the District also presents certain supplementary information and a statistical section that covers revenue, expenditure, and fund balance trends for the past 10 years. Furthermore, the District presents a Schedule of Expenditures of Federal Awards (SEFA) in the Federal Award Section. The SEFA, under Uniform Guidance (2 CFR 200), is a supplemental schedule to the financial statements that a non-federal entity is required to produce when it is subject to the single audit requirement. The single audit requirement is triggered when the federal expenditures reported on the SEFA exceed \$750,000 or more over the non-federal entity's fiscal year. The District meets the single audit criteria and is responsible for arranging for the audit, preparing the appropriate financial statements, taking corrective action on audit findings (if any), and providing the auditor with access to all information required to perform the audit.

Government-wide Financial Analysis

This section provides an analysis of the government-wide financial statements including long-term and short-term information about the District's overall financial condition. The following table is a summary of the District's overall net position.

	Governmental Activities			
	2023		2022	
Assets and Deferred Outflows of Resources				
Current and Other Assets	\$	85,306	\$	79,938
Capital and Other Non-Current Assets		4,873		5,193
Total Assets		90,179		85,131
Deferred Outflows of Resources		8,563		3,533
Liabilities and Deferred Inflows of Resources				
Current Liabilities		6,327		2,687
Non-Current Liabilities		17,445		7,839
Total Liabilities		23,772		10,526
Deferred Inflows of Resources		1,244		5,378
Net Position				
Net Investment in Capital Assets		3,351		3,243
Restricted		72,382		71,238
Unrestricted		(2,006)		(1,722)
Total Net Position	\$	73,727	\$	72,759

- Total assets increased by \$5.1 million or 6.0 percent over the prior year, mainly due to a \$3.8 million increase in cash. Excess funds are invested in the Local Area Investment Fund. In addition, receivables increased by \$1.7 million, primarily due to federal grant and interest receivables.
- Capital Assets decreased by \$0.2 million due to annual depreciation and amortization.
- Deferred outflows of resources increased by about \$5.0 million, primarily due to increases related to pensions.
- Total non-current liabilities increased by \$9.6 million mainly because of a \$9.1 million increase in net pension liability attributable to pension plan investment losses during the measurement year and a decrease in the CalPERS discount rate.
- Deferred inflows of resources decreased by roughly \$4.1 million from the prior year, primarily due to a \$3.9 million reduction in deferred inflows related to pensions.
- The net position of the District totaled \$73.7 million as of the end of FY 22-23 and increased approximately \$1.0 million or 1.3 percent over FY 21-22.

The largest portion of the District's net position at June 30, 2023, \$72.4 million, consists of resources subject to external restrictions on how they may be used. An additional \$3.4 million of the total net position reflects its net investment in capital assets (e.g., land, buildings, and equipment less any related debt used to acquire those assets that is still outstanding). The remaining portion of the District's net position is a deficit of \$2.0 million related mainly to the net pension liability.

The District's total net position increased by about \$1.0 million during the current fiscal year. Of this amount, \$1.1 million of the increase relates to the restricted net position, and roughly \$0.3 million is associated with a decrease in the unrestricted net position. The increase in the restricted net position is due to additional intergovernmental revenue received in the current year that will be disbursed in subsequent years. The decrease in the unrestricted net position is primarily related to an increase in pension liability. Net investment in capital assets increased slightly year-over-year mainly due to a reduction in long-term debt related to a capital asset.

The following schedule shows revenues by major source, expenses by function, and changes in net position for the fiscal years ended June 30, 2023, and June 30, 2022.

	Governmental Activities			
	2023		2022	
Revenues				
Program revenues:				
Charges for Services	\$	10,297	\$	9,653
Operating Grants and Contributions		19,635		9,660
General Revenues:				
DMV		5,122		5,097
Sales tax		2,570		2,552
Grants - not restricted to specific activities		364		359
Investment income (a)		1,505		(669)
Total Revenues		39,493		26,652
Expenses				
Business Compliance		8,513		6,838
Air Monitoring		5,022		3,446
Sustainable Land Use		2,021		1,999
Clean Transportation and Mobility Innovation		20,885		8,071
Community Health Protection		1,992		1,834
Interest on Long-Term Debt		70		76
Unallocated Depreciation		22		41
Total Expenses		38,525		22,305
Change in Net Position		968		4,347
Beginning Net Position, as restated		72,759		68,412
Net Position - Ending Balance	\$	73,727	\$	72,759

⁽a) Investment Income includes a Fair Market Value Adjustment per GASB 31.

Revenues for total governmental activities were \$39.5 million and increased by \$12.8 million or 48.2% over the prior year primarily due to the timing of grant revenue received in the year restricted for incentive projects that will be disbursed in subsequent years and interest income. The incentive grants are generally multi-year agreements with funds received in one year and incentive disbursements made to project participants over several years resulting in significant fluctuations in year-over-year revenues and expenses.

Overall expenses for governmental activities of \$38.5 million increased by \$16.2 million mainly due to increases in special revenue fund grant disbursements of \$11.7 million attributable to the timing of clean air technology incentive program payments. In addition, employee services expense increased by \$1.2 million due to filling previously vacant positions and net pension expense was higher than the prior year by \$2.7 million.

Financial Analysis of the Governmental Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The District has two governmental funds, the General and Special Revenue Funds. Governmental funds provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financial requirements.

The General Fund is the District's chief operating fund. At the end of FY 22-23, the total fund balance of the General Fund was \$20.9 million, an increase of \$0.5 million over the prior year. The Nonspendable Fund Balance represents prepaid expenses that decreased \$44,000 from the prior year. The Restricted Fund Balance increased by \$0.5 million from the prior year mainly due to permit fees. Assigned Fund Balance increased by \$1.0 million year-over-year and is used to set aside funds for a projected budgetary deficit in FY 23-24 that is forecasted to be more than the FY 22-23 budgetary deficit. The Unassigned Fund Balance decreased by \$1.0 million from the prior year primarily due to the reclassification (increase) in the Assigned Fund balance at the end of the fiscal year.

As a measure of the General Fund's liquidity, it may be useful to compare the total fund balance to total General Fund expenditures. Overall, the total fund balance represents approximately 99.2% of the total FY 22-23 General Fund expenditures. The growth of the fund balance over the past several years has been intentional to address potential economic downturns or other unanticipated factors and to implement District priorities for which near-term structural deficits are projected in the event no new revenue is received.

The Special Revenue total fund balance as of June 30, 2023 increased by \$0.9 million over the prior year. This increase was due to grant incentive revenue received by the fund in the current year being higher than the incentive disbursements in FY 22-23. As previously noted, due to the multi-year nature of the Special Revenue fund grants, fluctuations normally occur in year-over-year revenues and expenses and the resulting net change in fund balance.

Proprietary Fund

The Proprietary Fund (Covell Building Fund) is classified as an Internal Service Fund since most of the fund's revenue is derived from rent paid by the District. The net income of the fund is included as an offset to expenses in the current year's Statement of Activities.

Net income from the Proprietary Fund increased the District's net position on June 30, 2023, by \$0.6 million, higher than the \$0.4 million increase in the prior year. The year-over-year increase was mainly due to additional rental income. Highlights for the FY 22-23 Proprietary Fund results are as follows:

- Operating revenues from the building totaled \$1.3 million and increased \$0.2 million over the prior year. These revenues represent rental and parking income.
- Operating expenses for the building were \$0.7 million for the year, consistent with the prior fiscal period.
- The District made a principal payment of \$345,000 in FY 22-23 for the Certificates of Participation. Next year, the principal payment will be \$355,000.

Budgetary Highlights

General Fund revenues were \$1.9 million less than the Approved Budget primarily due to the timing of the receipt of state grant revenues and lower federal grant revenues related to grant sub-recipients, offset by higher-than-expected permit fees and investment income.

Expenditures for the General Fund were less than planned by \$4.1 million mainly due to position vacancies, reduced spending on professional services, fewer disbursements to federal grant subrecipients, and capital project deferrals. These variances were offset by a less-than-plan administrative credit related to the Special Revenue fund incentive grants.

Capital Assets and Debt Administration

Capital Assets

At the end of FY 22-23, the District's net investment in capital assets for its governmental activities was \$3.4 million (net of accumulated depreciation and any related debt used to acquire those assets that is still outstanding). This investment in capital assets includes land, building, office equipment, laboratory equipment, and air monitoring stations. The total investment in capital assets for the current fiscal year was \$0.2 million. Additional information on capital assets can be found in Note 5 under the Notes to the Basic Financial Statements section.

Long-term Debt

At the end of FY 22-23, the District had outstanding bonds secured by the District's administrative building. The total debt outstanding as of June 30, 2023, was \$1.5 million. Based on the current payment schedule, these bonds will be paid off by the end of 2027. Additional information on long-term liabilities can be found in Note 6 under the Notes to the Basic Financial Statements section.

Next Year's Budget

Revenues for the 2023-2024 fiscal year for the General Fund are budgeted to increase by approximately \$3.5 million, with increases expected mainly in state and federal grant revenues. The state grant revenues increase is due to the timing of the receipt of grant funds. Additionally, the increase in federal grant revenues reflects the District's administration of federal funds on behalf of other air districts in the region.

FY 23-24 expenditures for the General Fund are expected to increase by \$6.8 million over the actual amounts expended in FY 22-23. The budget anticipates an increase of \$2.1 million for salaries and benefits reflecting the District's plan to continue to fill approved open positions in FY 22-23 and a cost-of-living adjustment for overall wages. Services and Supplies are expected to increase by \$4.9 million, primarily for expenditures related to professional services, development of a software solution, and disbursements to federal grant sub-recipients. The budget anticipates an increase in capital spending of \$1.0 million mainly related to construction improvements for an air monitoring station, air monitoring equipment, and replacement vehicles for the District's fleet. Finally, interfund credits (offsets to expense) are planned to increase by \$1.2 million over the FY 22-23 actual credits. Overall, a \$2.7 million use of fund balance for the General Fund is budgeted for FY 23-24.

Economic Factors

As of June 30, 2023, foreseeable economic or political conditions that may influence the financial position of the District include cost increases for goods and services due to continued inflation, increases in retirement rates, and decreases in the CalPERS discount rate. The effects, if any, of these events are not calculable at this time. However, the recent inflationary economic environment is expected to continue to increase the cost of services and supplies in the near term.

Regarding revenues, the District is anticipating state and federal intergovernmental funding to stay relatively constant over the next few years. Measure A sales tax revenue is expected to increase by about 3.8% annually in the near term. However, it is unclear what effects inflation might have on the local economy and related impacts on government and consumer spending.

The District's multi-year forecast continues to show some significant funding gaps between revenues and expenses. The imbalance is due primarily to rising costs of doing business, such as employee services and capital expenditures outpacing revenue increases, new state mandates that are not adequately funded, and a legacy of a lack of full cost recovery for many of the District's programs. Staff will continue to work with the Board of Directors into FY 23-24 and beyond to identify additional funding strategies.

Requests for Information

This financial report is designed to provide a general overview of the District's finances for readers of the financial statements. Questions concerning any of the information provided in this report or requests for additional financial information may be emailed to finance@airquality.org or be addressed to:

Note 1 - Summary of Significant Accounting Policies

Accounting Policies

The Sacramento Metropolitan Air Quality Management District (District) accounts for its financial transactions in accordance with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board (GASB).

Reporting Entity

The Sacramento Air Pollution Control District was formed by the Sacramento County Board of Supervisors in December of 1959. In July of 1996, the Sacramento Metropolitan Air Quality Management District was created under Health and Safety Code Sections 40960 et. seq. to monitor, promote and improve air quality in the County of Sacramento. The District functions under the oversight of its fourteen-member Board of Directors, established and appointed pursuant to Health and Safety Code Section 40980. The District has no component units.

Basis of Presentation

Government-wide financial statements

The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, represented by function.

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Therefore, reconciliations, containing brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds, are included.

The government-wide statement of net position records all of the District's assets and liabilities including capital assets, long-term liabilities, and deferred inflows and deferred outflows of resources.

The government-wide statement of activities presents a comparison between total expenses and program revenues for each function or program of the District's governmental activities. Total expenses are those that are associated with or allocated to a service, program, or department and are therefore identifiable to a particular function. Program revenues include charges paid by the recipients of goods or services offered by a program, as well as grants and contributions that are restricted to meeting the operational requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District.

Fund financial statements

The focus of governmental fund financial statements is on major funds rather than reporting funds by activity type. The District has two major funds for reporting purposes: the General Fund and the Special Revenue Fund.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are the balance sheet, which includes current assets and liabilities, and the statement of revenues, expenditures, and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. The purchase of capital assets and long-term debt proceeds and payments are reflected as revenues and expenditures on these statements.

All proprietary fund types are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the statement of net position. The statement of revenues, expenses, and changes in net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net position. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary activities.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary funds use the accrual basis of accounting.

Revenues – exchange and non-exchange transactions

Revenues resulting from exchange transactions, in which each party gives and receives essentially equal value, are recorded on the accrual basis when the exchange takes place. District exchange transactions include the Proprietary Fund building rents and parking revenues and interest revenue.

Imposed non-exchange transaction revenues result from assessments imposed on nongovernmental entities, including individuals (other than assessments imposed on exchange transactions) and the revenues are recognized in the period when use of the resources is required or first permitted. District imposed non-exchange transactions include Stationary Source permit fees and renewals, Land Use Mitigation permits, planning service charges, SEED program fees, Title V permits, Agricultural Burning fees, Asbestos Plan Check fees, Air Toxics fees, variances, and settlements.

Notes to Financial Statements June 30, 2023

Government-mandated non-exchange transactions result from one level of government providing resources to another level of government and requiring the recipient to use the resources for a specific purpose. Voluntary non-exchange transactions result from agreements entered voluntarily by the parties thereto. Both types of non-exchange transaction revenues are treated in the same manner. Revenues are recognized when all applicable eligibility requirements are met. District transactions of both types include the Moyer program, State Subvention and Enforcement Grants, Goods Movement Emission Reduction Program (GMERP), Lower Emission School Bus Program (LESBP), Measure A Sales Tax, the DMV surcharge, Environmental Protection Agency Section 103 and 105 grants, Congestion Mitigation in Air Quality (CMAQ) grants, State Implementation Plan (Spare the Air) and various agreements with Yolo/Solano Counties, El Dorado County and Placer County.

Under the modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. "Available" means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, "available" means collectible within the current period or within 90 days after year-end.

Expenses/Expenditures

The government-wide financial statements are presented using the accrual basis of accounting, where expenses are recognized at the time they are incurred. The focus of governmental fund accounting is short-term. Therefore, expenditures are recorded when paid. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first. Then, unrestricted resources are used as needed.

Fund Accounting

The accounts of the District are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, deferred inflows of resources, fund equity or net position, revenues, and expenditures or expenses, as appropriate. District resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The District reports the following major funds:

The **General Fund** is the primary operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

The **Special Revenue Fund** accounts for the resources accumulated and payments made primarily for restricted mobile source and community air protection incentive awards.

The District also reports the following fund type:

The **Proprietary Fund (Internal Service Fund)** reports the ownership and operational revenues and expenses of the District's building along with the long-term debt obligations.

Cash and Cash Equivalents

The District considers all highly liquid investments with a maturity of three months or less at the time of purchase to be cash equivalents.

Prepaids

Prepaids represent payments for services that will benefit periods beyond June 30, 2023. The District uses the consumption method of accounting for Prepaids. Under the consumption method, governments may initially report prepaid items they purchased as an asset and defer the recognition of the expenditure until the period the inventories and prepaid items are consumed or used.

Capital Assets

Capital assets are capitalized at historical cost or estimated historical cost for assets where actual historic cost is not available. Donated capital assets are recorded at acquisition value at the date of donation. Acquisition value is the price that would have been paid to acquire an asset with equivalent service potential on the date of the donation. The District maintains a threshold level of \$5,000 or more for capitalizing capital assets. Federally funded assets maintain a threshold of \$5,000 or more for capitalizing capital assets. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Capital assets are recorded in the government-wide financial statements but are not reported in the fund financial statements. Capital assets are depreciated using the straight-line method over their estimated useful lives. Since surplus assets are sold for an immaterial amount when declared as no longer needed for public purposes by the District, no salvage value is taken into consideration for depreciation purposes. Useful lives vary from 2 to 39 years. Land is not depreciated.

Right to use subscription IT assets are recognized at the subscription commencement date and represent the District's right to use the underlying IT asset for the subscription term. Right to use subscription IT assets are measured at the initial value of the subscription liability plus any payments made to the vendor at the commencement of the subscription term, less any subscription incentives received from the vendor at or before the commencement of the subscription term, plus any capitalizable initial implementation costs necessary to place the subscription asset into service. Right to use subscription IT assets are amortized over the shorter of the subscription term or useful lives of the underlying asset using the straight-line method or the same method amortizing the debt. The amortization period varies from 2 to 3 years.

Lease Receivables

Lease receivables are recorded by the District as the present value of future lease payments expected to be received from the lessee during the lease term, reduced by any provision for estimated uncollectible amounts. Lease receivables are subsequently reduced over the life of the lease as cash is received in the applicable reporting period. The present value of future lease payments to be received are discounted based on the interest rate the District charges the lessee.

Compensated Absences

Accumulated unpaid employee vacation benefits and compensated time-off for certain employees in lieu of overtime compensation and/or working on holidays per bargaining agreements are recognized as liabilities of the District on the government-wide financial statements. Compensated absences are liquidated by the General Fund.

Accumulated sick leave benefits are not recognized as liabilities of the District. The District's policy is to record sick leave as an operating expenditure in the period taken since such benefits do not vest nor is payment probable; however, a portion of sick leave is added to the creditable service period for calculation of retirement benefits when the employee retires.

Deferred Inflows/Outflows of Resources

In addition to assets, the statement of financial position includes a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has two items that qualify for reporting in this category. It is the deferred amounts related to pension and OPEB. The deferred amounts related to pension and OPEB relate differences between estimated and actual investment earnings, changes in actuarial assumptions, and other pension and OPEB related changes.

In addition to liabilities, the statement of financial position includes a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has three items that qualify for reporting in this category. It is the deferred amounts related to pension and OPEB. The deferred amounts related to pension and OPEB relate differences between estimated and actual investment earnings, changes in actuarial assumptions, and other pension and OPEB related changes. Deferred inflows related to leases where the District is the lessor is reported in the proprietary fund and statement of net position. The deferred inflows of resources related to leases are recognized as an inflow of resources (revenue) on the straight-line basis over the term of the lease.

Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the District's California Public Employees' Retirement System (CalPERS) and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. The net pension liability is liquidated by the General Fund.

Other Postemployment Benefits (OPEB)

For purposes of measuring the net OPEB liability and deferred outflows/inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District's CalPERS health program and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by CalPERS health program. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. The net OPEB liability is liquidated by the General Fund.

Fund Balance

The District reports governmental fund balances in the following categories: Nonspendable, Restricted, Committed, Assigned and/or Unassigned.

Nonspendable Fund Balance reflects assets not in spendable form, either because they will never convert to cash (e.g., prepaid items) or must remain intact pursuant to legal or contractual requirements.

Restricted Fund Balance reflects amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation.

Committed Fund Balance reflects amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority: The Board of Directors. Commitments may be established, modified, or rescinded only through resolutions approved by the Board of Directors. A Board resolution serves as the highest level of commitment.

Assigned Fund Balance reflects amounts intended to be used only for specific purposes but do not meet the criteria to be classified as restricted or committed. Under the District's adopted policy, only the Board of Directors is authorized to assign amounts for specific purposes.

Unassigned Fund Balance represents the residual classification for the government's general fund and includes all spendable amounts not contained in other classifications. The General Fund is the only fund that reports an unassigned fund balance amount.

When expenditures are incurred for purposes of which restricted, committed, assigned and unassigned fund balances are available, the District considers restricted funds to have been spent first, followed by committed, assigned and unassigned, respectively.

Long-Term Liabilities

In the government-wide and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Issuance costs, whether withheld from the actual debt proceeds received, are reported as debt service expenditures.

Notes to Financial Statements June 30, 2023

Subscription liabilities represent District's obligation to make subscription payments arising from the subscription contract. Subscription liabilities are recognized at the subscription commencement date based on the present value of future subscription payments expected to be made during the subscription term. The present value of subscription payments is discounted based on a borrowing rate determined by District.

Eliminations and Reclassifications

In the process of aggregating data for the government-wide statements, some amounts reported as inter-fund activity and balances in the fund financial statements, were eliminated or reclassified. Inter-fund receivables and payables were eliminated to minimize the "grossing up" effect on assets and liabilities within the government activities column. Interfund services provided and used are not eliminated in the process of consolidation.

Use of Estimates

Management is called upon to use estimates and assumptions. These estimates and assumptions may affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results may differ from those estimates.

Implementation of New Governmental Accounting Standards

The Governmental Accounting Standards Board (GASB) releases new accounting and financial reporting standards which may have a significant impact on the District's financial reporting process. New standards applicable to the year ending June 30, 2023, are as follows:

GASB Statement No. 91 – In May 2019, GASB issued Statement No. 91, *Conduit Debt Obligations*. The objective of this Statement is to make financial statements more useful to end users by eliminating this diversity of practice in Conduit Debt Obligation reporting. Additionally, GASB 91 enhances financial statement note disclosures regarding issuers' commitments and the likelihood that they will fulfill them. This Statement is effective for reporting periods beginning after December 15, 2021. The District has determined this Statement did not have an impact on the financial statements.

GASB Statement No. 94 – In March 2020, GASB issued Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*. The objective of this Statement is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). This Statement is effective for reporting periods beginning after June 15, 2022. The District has determined this Statement did not have an impact on the financial statements.

GASB Statement No. 96 – In May 2020, GASB issued Statement No. 96, Subscription-Based Information Technology Arrangements. The objective of this Statement is to establish uniform accounting and financial reporting requirements for subscription-based information technology arrangements (SBITAs); improve comparability of government's financial statements; and enhance the understandability, reliability, relevance, and consistency of information about SBITAs. This Statement is effective for reporting periods beginning after June 15, 2022. As of July 1, 2022, the District adopted GASB Statement No. 96. The effect of the implementation of this standard on beginning net position is disclosed in Note 13 and the additional disclosures required by this standard are included in Note 7.

GASB Statement No. 99 – In April 2022, the GASB issued Statement No. 99, *Omnibus 2022*. The objectives of this Statement are to enhance comparability in account and financial reporting and to improve the consistency of authoritative literature by addressing (1) practice issues that have been identified during implementation and application of certain GASB Statements and (2) accounting and financial reporting for financial guarantees. The requirements of this Statement related to the extension of the use of LIBOR, accounting for SNAP distributions, disclosures of nonmonetary transactions, pledges of future revenues by pledging governments, clarification of certain provisions in Statement 34, as amended, and terminology updates related to Statement 53 and Statement 63 are effective upon issuance. The requirements related to leases, PPPs, and SBITAs are effective for fiscal years beginning after June 15, 2022. The District has determined that there was no material impact on the financial statements.

Note 2 - Cash, Cash Equivalents, and Investments

Cash and Investments

Statement of net position:

As of June 30, 2023, cash and investments were reported in the accompanying financial statements as follows:

Cash and cash equivalents Restricted cash and cash equivalents	\$ 79,751,006 427,140
Total cash and investments	\$ 80,178,146
Cash and investments as of June 30, 2023, consist of the following:	
Deposits Balance per bank Less outstanding checks and deposits Investment in Local Agency Investment Fund	\$ 9,090,892 (3,107,239) 73,767,353
Investments with fiscal agent	427,140
Total cash and investments	\$ 80,178,146

Deposits

The carrying amount of the District's cash is covered by federal depository insurance up to \$250,000. Should deposits exceed the insured limits, the balance is covered by collateral held by the bank in accordance with California law requiring the depository bank to hold collateral equal to 110 percent of the excess government funds on deposit. This collateral must be in the form of government-backed securities.

Investments in the Local Agency Investment Fund (LAIF)

The District is a participant in the Local Agency Investment Fund (LAIF) that is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California. The District reports its investment in LAIF at the fair value amount provided by LAIF. The balance is available for withdrawal on demand and is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis. Investments in LAIF are highly liquid, as deposits can be converted to cash within 24 hours without loss of interest.

LAIF is overseen by the Local Agency Investment Advisory Board, which consists of five members, in accordance with State statute. The LAIF financial statements are available at the State Treasurer's Office website at www.treasurer.ca.gov. LAIF is not registered with the Securities and Exchange Commission and is not rated by the credit rating agencies.

Investments Authorized by Debt Agreements

The District must maintain required amounts of cash and investments with fiscal agents under the terms of certain debt issues. These moneys are governed by provisions of the debt agreements, rather than the general provisions of the California Government Code or the District's investment policy. At June 30, 2023, \$427,140 was held in reserve related to the District's Certificates of Participation (COP) and is invested in a 2a-7 Money Market Mutual Fund. This type of investment primarily invests in short term U.S. Treasury, government securities (including repurchase agreements collateralized by U.S. Treasury and government agency securities), agency mortgage-backed securities, and short-term high quality municipal obligations that provide income exempt from federal and California state income tax and federal alternative minimum tax. The fund holds AAAm and Aaa-mf ratings from Standard & Poor's and Moody's, respectively.

Moneys in the COP's reserve will at all times be in the amount of the Reserve Requirement. The Reserve Requirement is defined as the lesser of (i) 10 percent of the original principal amount, (ii) an amount equal to the maximum annual Lease payment payable in a Certificate Year by the District, or (iii) 125 percent of the average annual lease payment.

Fair Value Measurement

The District categorizes the fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

Deposits and withdrawals in governmental investment pools, such as LAIF, are made on the basis of \$1 and not fair value. Accordingly, the District's proportionate share in these types of investments is an uncategorized input not defined as a Level 1, Level 2, or Level 3 input.

The valuation of the 2a-7 Money Market Mutual funds held by fiscal agent for the COP's reserve is at one-dollar net asset value (NAV) per share.

Investments Authorized by the District's Investment Policy

The table below identifies the investment types authorized for the District by the California Government Code Section 53601. This table also identifies certain provisions of the California Government Code that address the maximum interest rate risk, credit risk, and concentration of credit risk.

		Percentage of	Investment in
Authorized Investment Type	Maturity	Portfolio	One Issuer
U.S. Treasury Notes & Agency Obligations	5 years	100%	N/A
Washington Supranational Obligations	5 years	30%	10%
Municipal Notes	5 years	80%	10%
Registered State Warrants	5 years	80%	10%
Bankers Acceptances	180 days	40%	10%
Commercial Paper	270 days	40%	10%
Negotiable Certificates of Deposit	180 days	30%	10%
CRA Bank Deposit/Certificates of Deposit	1 year	30%	10%
Repurchase Agreements	1 year	30%	10%
Reverse Repurchase Agreements	92 days	20%	10%
Medium-Term Corporate Notes	180 days	30%	10%
Collateralized Mortgage Obligations	180 days	20%	10%
Local Agency Investment Fund (LAIF)	N/A	\$75 million	10%
Money Market Mutual Funds	N/A	20%	10%

Note 3 - Receivables

Receivables consisted of the following as of June 30, 2023:

Governmental Funds:

Sales/Use Tax Intergovernmental:	\$ 369,120
State	1,378,383
Federal	2,438,497
Interest Receivable	561,182
Miscellaneous	 210,608
	 _
Total	\$ 4,957,790

Note 4 - Leases

The District as lessor leases office space to tenants on a fixed monthly fee. Substantially all of the assets classified as capital assets in the proprietary fund are for the purpose of rental or related use.

The District has accrued a receivable for one office space lease. The remaining receivable for this lease was \$77,993 for the year ended June 30, 2023. Deferred inflows related to this lease was \$73,960 as of June 30, 2023. Interest revenue recognized on this lease was \$4,450 for the year ended June 30, 2023. Principal receipts of \$128,463 was recognized during the fiscal year. The interest rate on the lease was 3.00%. Final receipt is expected in fiscal year 2023-24.

Note 5 - Capital Assets

Capital asset activity for the year ended June 30, 2023, was as follows:

	Balance July 1, 2022	Additions	Transfers	Balance June 30, 2023	
Governmental Activities:					
Capital assets, not being depreciated Land Construction in process	\$ 1,086,652 93,885	\$ - 19,582	\$ - -	\$ 1,086,652 113,467	
Total capital assets, not being depreciated	1,180,537	19,582		1,200,119

Governmental Activities:

Air Monitoring	\$ 426,849
Internal Service Fund	206,158
Unallocated	 21,815
Total depreciation/amortization expense	\$ 654,822

Depreciation/amortization expense held by the District's internal service fund is charged to various functions and programs based on their usage of the related assets.

Note 6 - Long-Term Liabilities

Less Accumulated Amortization

Governmental activities right to use subscription IT assets, net

Changes in Long-Term Liabilities

Long-term liability activity for the year ended June 30, 2023, was as follows:

	Beginning Balance	Additions Deductions		Ending Balance	Due Within One Year	
Governmental Activities:						
Certificates of Participation Premium Compensated Absences	\$ 1,850,000 21,674 1,382,042	\$ - - 1,181,667	\$ (345,000) (4,907) (1,118,124)	\$ 1,505,000 16,767 1,445,585	\$ 355,000 4,908 902,586	
Total	\$ 3,253,716	\$ 1,181,667	\$ (1,468,031)	\$ 2,967,352	\$ 1,262,494	

Certificates of Participation

In March 2012, the District refunded the 2002 certificates with the 2012 certificates in the amount of \$4,350,000, with interest rates ranging from 3.00 percent to 4.00 percent. As of June 30, 2023, the principal balance outstanding was \$1,505,000. Proceeds included a bond premium of \$72,382, which will be amortized over the life of the COPs. The agreement includes a provision that in the event of a default or breach, the trustee may declare all lease payments then remaining unpaid be immediately due and owing, without further demand.

The certificates mature as follows:

<u>Principal</u>	Interest	Totals		
\$ 355,000	\$ 53,100	\$ 408,100		
370,000	38,600	408,600		
385,000	23,500	408,500		
395,000	7,900	402,900		
1,505,000	123,100	1,628,100		
16,767		16,767		
		_		
\$ 1,521,767	\$ 123,100	\$ 1,644,867		
	\$ 355,000 370,000 385,000 395,000 1,505,000 16,767	\$ 355,000 \$ 53,100 370,000 38,600 385,000 23,500 395,000 7,900 1,505,000 123,100 16,767 -		

For the year ended June 30, 2023, total interest expense for the COPs was \$65,594, and principal paid on the COPs was \$345,000. The COP's activity is recorded in the Internal Service Fund.

Note 7 - Subscription-Based Information Technology Arrangements (SBITAs)

The District has entered into two SBITA contracts for ERP software and Microsoft Office 365 software. The District is required to make annual principal and interest payments. The final annual subscription payment was made in March 2023 for the period of March 2023 through February 2024. The subscription liability was valued using a discount rate of 3.87% and 3.5% based on the District's incremental borrowing rate at the inception of the subscriptions.

A summary of the changes in subscription IT liabilities during the year ended June 30, 2023 is as follows:

	(F	Restated)						
		eginning Balance	Ad	ditions	D	eductions	Ending Balance	 e Within ne Year
Governmental Activities:								
Subscription IT liabilities	\$	110,879	\$		\$	(110,879)	\$ 	\$
Total	\$	110,879	\$		\$	(110,879)	\$ 	\$

Note 8 - Risk Management/Claims Liabilities

The District is exposed to various risks of loss related to theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the District is covered by commercial insurance purchased from independent third parties.

There have been no significant changes in insurance coverage and the District did not have any settlements that exceeded insurance coverage in any of the past three years.

During the fiscal year ended June 30, 2023, the District insured with the Special District Risk Management Authority (SDRMA) for general liability, errors and omissions, workers' compensation, and a variety of comprehensive coverage (See Note 9). The District also provides a selection of health insurance coverage and elective options for additional health related insurance coverage.

Note 9 - Jointly Governed Organization

The District is a member of the Special District Risk Management Authority (SDMRA), through a Joint Power Agreement (JPA). The relationship between the District and the JPA is such that the JPA is not a component unit of the District for financial reporting purposes.

SDRMA arranges for and provides property, liability, error and omissions, auto liability, crime and fidelity, workers' comp and boiler and machinery insurance to its members. SDRMA is governed by a seven-member Board of Directors. Directors are elected at-large from the membership to serve four-year terms. The board controls the operations of the JPA, including selection of management and approval of operating budgets, independent of any influence by the member districts beyond their representation on the board. Each member district pays a premium commensurate with the level of coverage requested and shares surpluses and deficits proportionate to their participation in SDRMA.

Condensed audited financial information of SDRMA for the year ended June 30, 2023, is as follows:

Total Assets	\$ 146,574,993
Deferred Outflows of Resources	1,664,198
Total Liabilities	76,343,471
Deferred Inflows of Resources	374,517
Net Position	\$ 71,521,203
Total Revenues	\$ 100,884,445
Total Expenses	96,706,371
Net Income (Loss)	\$ 4,178,074

Complete audited financial statements for the JPA can be obtained by contacting SDRMA, 1112 I Street, Suite 300, Sacramento, California 95814.

Nature of Participation

Program	ctible per currence	Annual Coverage Limit
General Liability	\$ 500	\$5,000,000 Per Occurrence
Public Officials and Employees Errors and Omissions	\$ -	\$5,000,000 Per Occurrence/Annual Aggregate
Elected Officials Personal Liability	\$ 500	\$500,000 Per Occurrence/Annual Aggregate per each elected /appointed Board Member/Director
Employment Practices Liability	\$ -	\$5,000,000 Per Occurrence/General Aggregate
Employee Benefits Liability	\$ -	\$5,000,000 Per Occurrence/General Aggregate

Uninsured/Underinsured Motorist	\$ -	\$5,000,000 Each Accident
Property Coverage	\$ 1,000	\$800,000,000 Each Occurrence
Boiler and Machinery Coverage	\$ 1,000	\$100,000,000 Each Occurrence
Statutory Workers' Comp	\$ -	Statutory Per Occurrence
Cyber Coverage	\$ 50,000	\$750,000 - \$2,000,000 Annual Aggregate
Pollution Coverage	\$ 50,000	\$2,000,000 Blanket Limit per Pollution Condition

Note 10 - Commitments and Contingencies

State and Federal Allowances, Awards, and Grants

The District has received state and federal funds for specific purposes that are subject to review and audit by the grantor agencies. Although such audits could generate expenditure disallowances under terms of the grants, it is believed that any required reimbursement would not be material.

Note 11 - Employee Retirement Systems

CalPERS

Plan Description

Effective July 1, 1996, all qualified employees began participating in the California Public Employee Retirement System (CalPERS), a cost-sharing multiple-employer defined benefit plan administered by CalPERS. Benefit provisions under the Plan are established by State statute and District resolution. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website.

CalPERS issues a separate Annual Comprehensive Financial Report. Copies of the CalPERS annual financial report may be obtained from the CalPERS Executive Office – 400 Q Street, Room 3340, Sacramento, California 95811.

Benefits Provided

The benefits for public agencies are established by contract with CalPERS in accordance with the provisions of the Public Employees Retirement Law. All qualified part-time and full-time employees of the District are required to participate in CalPERS. CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full-time employment. Members with 5 years of total service are eligible to retire at age 50 or 52 (depending on the Plan) with statutorily reduced benefits.

The Plan's provisions and benefits in effect at June 30, 2023, are summarized as follows:

	Prior to	On or after
Hire date:	<u>January 1, 2013</u>	January 1, 2013
Benefit formula	2% @ 55	2% @ 62
Benefit vesting schedule	5 years of	5 years of
benefit vesting schedule	service	service
Benefit payments	Monthly for life	Monthly for life
Retirement age	50	52
Monthly benefits, as a % of eligible compensation	1.4% to 2.4%	1.0% to 2.5%
Required employee contribution rates	7.00%	6.25%
Required employer contribution rates	10.32%	7.47%
Final Compensation	36 months	36 months

Funding Policy

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by an actuary and shall be effective on July 1st following the notice of a change in rate. Funding contributions for the Plan are determined annually on an actuarial basis as of June 30th by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. The District's employer contributions to the Plan for the year ended June 30, 2023, were \$2,024,793.

Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions

As of June 30, 2023, the District reported a net pension liability for its proportionate share of the net pension liability of the Plan in the amount of \$14,243,087.

The District's net pension liability for the Plan is measured as of June 30, 2022 (the measurement date), and the total pension liability for the Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2021. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. The District's proportionate share of the net pension liability for the Plan as of June 30, 2023, was as follows:

	CLASSIC/PEPRA
Proportion - June 30, 2022 Proportion - June 30, 2023	0.2699% 0.3044%
Change - Increase (Decrease)	0.0346%

For the year ended June 30, 2023, the District recognized pension expense of \$2,903,720. At June 30, 2023, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	rred Outflows f Resources	Deferred Inflows of Resources		
Changes in assumptions	\$ 1,459,502	\$	_	
Differences between expected and actual experience	286,029		191,570	
Net difference between projected and actual investment earnings	2,608,955		-	
Difference between employer's contributions and proportionate				
share of contributions	-		831,955	
Change in employer's proportion	1,022,802		-	
Pension contributions made subsequent to measurement date	 2,024,793		-	
Total	\$ 7,402,081	\$	1,023,525	

\$2,024,793 reported as deferred outflows of resources relate to contributions made subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2024.

Missollanoous

Other amounts reported as deferred outflows/(inflows) of resources related to pensions will be recognized as pension expense as follows:

Year Ended June 30,			
2024	Ç	5	1,191,474
2025			1,015,957
2026			550,606
2027			1,595,726
	_		
Total		5	4,353,763

Actuarial assumptions

For the measurement period ending June 30, 2022 (the measurement date), the total pension liability was determined by rolling forward the June 30, 2021, total pension liability. The June 30, 2022, total pension liability was based on the following actuarial methods and assumptions:

Valuation Date	June 30, 2021
Measurement Date	June 30, 2022
Actuarial Cost Method	Entry-Age Normal Cost Method
Actuarial Assumptions:	
Discount Rate	6.90%
Inflation	2.30%
Investment Rate of Return	6.90%
Projected Salary Increase	Varies by entry age and service
Mortality rate table	Derived using CalPERS' membership data for all funds (1)

(1) The mortality table used was developed based on CalPERS-specific data. The table includes generational mortality improvements using Society of Actuaries Scale 80% of scale MP 2020 based on the November 2021 experience study report (based on CalPERS demographic data from 2001 to 2019) that can be found on the CalPERS website.

Change of Assumptions - The discount rate of 6.90 percent used for the June 30, 2022, measurement date was decreased from 7.15 percent used for the June 30, 2021 measurement date.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all of the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

The table below reflects the long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and assets allocation. These rates of return are net of administrative expenses.

Asset Class	Target Allocation	Real Return(a)(b)
Global Equity - Cap-weighted	30.00%	4.54%
Global Equity - Non-Cap-weighted	12.00%	3.84%
Private Equity	13.00%	7.28%
Treasury	5.00%	0.27%
Mortgage-backed Securities	5.00%	0.50%
Investment Grade Corporates	10.00%	1.56%
High Yield	5.00%	2.27%
Emerging Market Debt	5.00%	2.48%
Private Debt	5.00%	3.57%
Real Estate	15.00%	3.21%
Leverage	-5.00%	-0.59%
Total	100%	

- (a) an expected inflation of 2.30% is used for this period.
- (b) figures are based on the 2021 Asset Liability Management study.

Discount Rate - The discount rate used to measure the total pension liability was 6.90 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and the contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 6.90 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

		Current			
	Discount Rate 5.90%	Discount Rate 6.90%	Discount Rate 7.90%		
Net Pension Liability	\$ 23,299,617	\$ 14,243,087	\$ 6,791,810		

Pension Plan Fiduciary Net Position – Detailed information about the Plan's fiduciary net position is available in the separately issued CalPERS financial reports.

Note 12 - Other Postemployment Benefits (OPEB)

General Information about the OPEB Plan

Plan Description. The District participates in an agent multi-employer defined benefit medical plan administered by the California Public Employees' Retirement System (CalPERS). The plan provides postemployment healthcare benefits to eligible retirees by contributing the minimum employer contributions (MEC) \$149 in calendar year 2023. An additional \$150 is contributed towards retiree health care costs based upon a Board approved employee contract. This coverage is available for employees who retire with the District on reaching normal retirement age. At June 30, 2022, the District had 28 retirees participating in the plan.

The District has established an irrevocable trust to fund the OPEB Plan with the California Employers' Retiree Benefit Trust (CERBT).

The CERBT was established by Chapter 331 of the 1988 California Statutes, and employers elect to participate in the CERBT to pre-fund health, dental, and other non-pension postemployment benefits for their retirees and survivors. The CERBT has pooled administrative and investment functions, while separate employer accounts are maintained to prefund and pay for health care or other postemployment benefits in accordance with the terms of the participating employers' plans. There are three Board approved investment strategies for employers to choose from depending on their expected levels of return and volatility.

Benefits provided. The District provides healthcare benefits for retirees and their dependents. Benefits are provided through a third-party insurer, and the full cost of the benefits is covered by the plan.

Employees covered by benefit terms. At June 30, 2022, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments Active employees	28 88
Total	116

Contributions. The contribution rate is determined on an annual basis by an independent actuary. Employees are not required to contribute to the plan. The District's employer contributions to the Plan for the year ended June 30, 2023, were \$233,501.

Net OPEB Liability

The District's net OPEB liability was measured as of June 30, 2022, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of July 1, 2021.

Actuarial assumptions: Total OPEB liability in the June 30, 2022, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Salary increases 2.75% per annum Investment rate of return 5% per annum

Medical trend rates 6.25% in 2022, decreasing 0.25% per year to an ultimate

rate of 4.5% for 2031 and later years

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major class included in the OPEB plan's target asset allocation as of June 30, 2022, are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return (a)
CERBT		
Global Equity	23%	N/A
Global Debt Securities	51%	N/A
Inflation assets	9%	N/A
Commodities	3%	N/A
REITs	14%	N/A
Total	100%	5.00%

(a) Consistent with the information provided as of the measurement date. Long-term expected real rate of return is not provided by asset class and therefore shown as N/A here.

Discount rate. The discount rate used to measure the total OPEB liability was 5.0 percent. The projection of cash flows used to determine the discount rate assumed that District contributions will be made at rates equal to the actuarially determined contribution rates through the CERBT under its investment allocation strategy 3. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments for current active and inactive employees. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Changes in the Net OPEB Liability

Change in the net OPEB liability for the measurement date June 30, 2022, is as follows:

	Increase (Decrease)			
	Total OPEB Plan Fiduciary Liability (a) Net Position (b)		Net OPEB Liability (a)-(b)	
Balances at June 30, 2022 Changes for the year:	\$ 3,805,960	\$ 3,129,348	\$ 676,612	
Service cost	137,220	-	137,220	
Interest	231,526	-	231,526	
Changes in assumptions	514,719	-	514,719	
Differences between expected and actual experience Contributions - employer Net investment income Benefit payments Administrative expense	(96,220) - - (171,333) -	327,336 (336,224) (171,333) (795)	(96,220) (327,336) 336,224 - 795	
Net changes	615,912	(181,016)	796,928	
Balances at June 30, 2023	\$ 4,421,872	\$ 2,948,332	\$ 1,473,540	

Sensitivity of the net OPEB liability to changes in the discount rate and healthcare cost trend rates. The following presents the net OPEB liability of the District, as well as what the District's net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (4.0%) or 1-percentage-point higher (6.0%) than the current discount rate:

	1% Decrease	Discount Rate	1% Increase
	(4.00%)	(5.00%)	(6.00%)
Net OPEB liability	\$ 2,095,645	\$ 1,473,540	\$ 958,819

Sensitivity of the net OPEB liability to changes in the healthcare cost trend rates. The following presents the net OPEB liability of the District, as well as what the District's net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower (5.25% for HMO and PPO decreasing to 3.5%) or 1-percentage-point higher (7.25% for HMO and PPO decreasing to 5.5%) than the current healthcare cost trend rates:

	(5.25% l de	% Decrease HMO / 5.25% PPO creasing to MO / 3.5% PPO)	(6.25% decreas	re Cost Trend Rates HMO / 6.25% PPO ing to 4.5% HMO / 4.5% PPO)	(7.25% c	1% Increase HMO / 7.25% PPO lecreasing to HMO / 5.5% PPO)
	3.37011	100 / 3.3/0110/		4.570110)	3.370	11/10 / 3.3/0110/
Net OPEB liability	\$	959.867	\$	1,473,540	\$	2,123,877

OPEB plan fiduciary net position. Detailed information about the OPEB plan's fiduciary net position is available in the separately issued CalPERS financial report.

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2023, the District recognized OPEB expense of \$366,602. At June 30, 2023, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Differences between expected and actuarial experience Changes of assumptions Net difference between projected and actual earnings on	\$	110,951 514,969	\$	144,645 1,722
OPEB plan investments Contributions subsequent to measurement date		301,810 233,501		- -
Total	\$	1,161,231	\$	146,367

Contributions made subsequent to the measurement date of \$233,501 that are recorded as a deferred outflow of resources will be recognized as a reduction of the net OPEB liability during the year ended June 30, 2024.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ending June 30,		
2024	,	402.022
2024	\$	183,923
2025		188,209
2026		104,698
2027		143,160
2028		37,447
Thereafter		123,926
Total	\$	781,363

Note 13 - Adoption of New Standard

As of July 1, 2022, the District adopted GASB Statement No. 96, Subscription-Based Information Technology Arrangements (SBITAs). The implementation of this standard establishes that a SBITA results in a right to use subscription IT asset – an intangible asset – and a corresponding liability. The standard provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA. The Statement requires recognition of certain SBITA assets and liabilities for SBITAs that previously were recognized as outflows of resources based on the payment provisions of the contract. Beginning net position was restated to retroactively adopt the provisions of GASB Statement No. 96 as follows:

	GovernmentalActivities
Net position at June 30, 2022, as previously reported	\$ 72,759,226
Recognition of right to use subscription IT assets Reversal of prepaid asset related to IT assets Recognition of subscription IT liabilities	184,026 (73,147) (110,879)
Net position at July 1, 2022, as restated	\$ 72,759,226

Note 1 - Budgetary Comparison Schedule

Budgets are prepared on the modified accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board. The legal level of budgetary control is the classification level.

On or before the last day in February of each year, all divisions of the District submit budget packages to the Administrative Services Division Manager so that a budget may be prepared. The District notices and holds two public meetings as part of the Sacramento Metropolitan Air Quality Management District Board of Directors meetings in April and May. As required by air pollution control laws, noticing is done 30 days prior to the public hearing. The Board holds public hearings, and a final budget or continuing budget resolution must be prepared and adopted no later than June 30th.

The appropriated budget is prepared by fund, function and division. The District's division managers may make transfers of appropriations within an object (e.g., salaries and benefits, services and supplies, capital outlay and inter-fund charges). Transfers of appropriations between objects require the approval of the Board.

Statistical Section June 30, 2023

Sacramento Metropolitan Air Quality Management District This part of the comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

Please note that the District made changes to the activity types in Fiscal Year 2019. As a result, some schedules will show five years of history with the previous activity types and a second schedule will contain five years of data with the new activity types for a total of 10 years of historical data. It was not feasible to restate prior years. In addition, it was determined in Fiscal Year 2019 that the Proprietary Fund was more properly classified as an Internal Service Fund; in previous years the fund was shown as an Enterprise fund. Prior years have not been restated for this change in fund classification.

Financial Trends

The following schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time:

Schedule 1 – Net Position by Component – Last Ten Fiscal Years

Schedule 2 – Changes in Net Position – Last Ten Fiscal Years

Schedule 3 – Fund Balances of Governmental Funds – Last Ten Fiscal Years

Schedule 4 – Changes in Fund Balances of Governmental Funds – Last Ten Fiscal Years

Schedule 5 – General Fund Expenditures by Major Object (Budgetary) – Last Ten Fiscal Years

Schedule 6 - General Fund Expenditures by Major Object (Actual) - Last Ten Fiscal Years

Revenue Capacity

The following schedules present information to help the reader assess the District's own source revenue, permits and fees:

Schedule 7 – General Government Revenues by Source – Last Ten Fiscal Years

Schedule 8 - Own Source Government Revenue - Last Ten Fiscal Years

Operating Information

The following schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs:

Schedule 9 – Demographic Information – Last Ten Years

Schedule 10 – DMV Registrations (Autos & Trucks) – Last Ten Years

Schedule 11 – Principal Employers – Current Year and Ten Years Ago

Schedule 12 – District Staff Position List – Last Ten Fiscal Years

Schedule 13 – Ratios of Outstanding Debt by Type – Last Ten Fiscal Years

Schedule 14 – Capital Assets by Function/Program – Last Ten Fiscal Years

Schedule 1 – Net Position by Component –

Sacramento Metropolitan Air Quality Management District

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Board of Directors
Sacramento Metropolitan Air Quality Management District
Sacramento, California

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Sacramento Metropolitan Air Quality Management District (District), as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 20, 2023. Our report includes an emphasis of matter related to the District's adoption of the provisions of Government Accounting Standards Board (GASB) Statement No. 96, Subscription Based Information Technology Arrangements, for the year ended June 30, 2023.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Sacramento, California

December 20, 2023

Independent Auditor's Report on Compliance for the Major Federal Program and Report on Internal Control Over Compliance Required by the Uniform Guidance

To the Board of Directors Sacramento Metropolitan Air Quality Management District Sacramento, California

Report on Compliance for the Major Federal Program

Opinion on the Major Federal Program

We have audited Sacramento Metropolitan Air Quality Management District's (District) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on the District's major federal program for the year ended June 30, 2023. The District's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2023.

Basis for Opinion on the Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for the major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of the major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and
 perform audit procedures responsive to those risks. Such procedures include examining, on a test basis,
 evidence regarding the District's compliance with the compliance requirements referred to above and
 performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order
 to design audit procedures that are appropriate in the circumstances and to test and report on internal
 control over compliance in accordance with the Uniform Guidance, but not for the purpose of
 expressing an opinion on the effectiveness of the District's internal control over compliance.
 Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Note 1 - Basis of Presentation

The accompanying schedule of expenditures of federal awards (Schedule) includes the federal award activity of the District under programs of the federal government for the year ended June 30, 2023. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.

Note 2 - Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting, except for subrecipient expenditures, which are recorded on the cash basis. When applicable, such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

Note 3 - Indirect Cost Rate

The District has not elected to use the 10-percent de minimis indirect cost rate.

Note 4 - Pass-Through Entities' Identifying Number

When federal awards were received from a pass-through entity, the Schedule will show, if available, the identifying number assigned by the pass-through entity. When no identifying number is shown, the District has determined that no identifying number is assigned for the program, or the District was unable to obtain an identifying number from the pass-through entity.

December 20, 2023

To the Board of Directors
Sacramento Metropolitan Air Quality Management District
Sacramento, California

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Sacramento Metropolitan Air Quality Management District (District) as of and for the year ended June 30, 2023, and have issued our report thereon dated December 20, 2023. Professional standards require that we advise you of the following matters relating to our audit.

Our Responsibility in Relation to the Financial Statement Audit under Generally Accepted Auditing Standards and Government Auditing Standards and our Compliance Audit under the Uniform Guidance

As communicated in our letter dated July 17, 2023, our responsibility, as described by professional standards, is to form and express an opinion about whether the financial statements that have been prepared by management with your oversight are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America and to express an opinion on whether the District complied with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District major federal programs. Our audit of the financial statements and major program compliance does not relieve you or management of its respective responsibilities.

Our responsibility, as prescribed by professional standards, is to plan and perform our audit to obtain reasonable, rather than absolute, assurance about whether the financial statements are free of material misstatement. An audit of financial statements includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control over financial reporting. Accordingly, as part of our audit, we considered the internal control of the District solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

Our responsibility, as prescribed by professional standards as it relates to the audit of the District's major federal program compliance, is to express an opinion on the compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. An audit of major program compliance includes consideration of internal control over compliance with the types of compliance requirements referred to above as a basis for designing audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, as a part of our major program compliance audit, we considered internal control over compliance for these purposes and not to provide any assurance on the effectiveness of the District's internal control over compliance.

We are also responsible for communicating significant matters related to the audit that are, in our professional judgment, relevant to your responsibilities in overseeing the financial reporting process. However, we are not required to design procedures for the purpose of identifying other matters to communicate to you.

We have provided our comments regarding internal controls during our audit in our Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards* dated December 20, 2023. We have also provided our comments regarding compliance with the types of compliance requirements referred to above and internal controls over compliance during our audit in our Independent Auditor's Report on Compliance with the Major Federal Program and Report on Internal Control Over Compliance Required by the Uniform Guidance dated December 20, 2023.

Planned Scope and Timing of the Audit

We conducted our audit consistent with the planned scope and timing we previously communicated to you.

Compliance with All Ethics Requirements Regarding Independence

The engagement team, others in our firm, as appropriate, our firm, and other firms utilized in the engagement, if applicable, have complied with all relevant ethical requirements regarding independence.

Qualitative Aspects of the Entity's Significant Accounting Practices

Significant Accounting Policies

Management has the responsibility to select and use appropriate accounting policies. A summary of the significant accounting policies adopted by the District is included in Note 1 to the financial statements. As described in Note 1 to the financial statements, the District changed accounting policies related to accounting for right-to-use subscription assets to adopt the provisions of GASB Statement No. 96, Subscription-Based Information Technology Arrangements. Accordingly, the accounting change has been retrospectively applied to the financial statements beginning July 1, 2022. No matters have come to our attention that would require us, under professional standards, to inform you about (1) the methods used to account for significant unusual transactions and (2) the effect of significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus.

Significant Accounting Estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's current judgments. Those judgments are normally based on knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ markedly from management's current judgments.

The most sensitive accounting estimates affecting the financial statements are amounts related to the net pension liability and related deferred inflows of resources and deferred outflows of resources and the other post-employment benefits (OPEB) liability and related deferred inflows of resources and deferred outflows of resources.

Management's estimate of the net pension liability, related deferred inflows of resources and deferred outflows of resources, and disclosures are based on actuarial valuations and a proportionate share of the collective net pension liability of the California Public Employee's Retirement System (CalPERS) cost-sharing plan. We evaluated the key factors and assumptions used to develop management's estimates and determined that it is reasonable in relation to the basic financial statements taken as a whole.

Management's estimates of the OPEB liability, related deferred inflows of resources and deferred outflows of resources, and disclosures are based on actuarial valuations. We evaluated the key factors and assumptions used to develop management's estimates and determined that they are reasonable in relation to the financial statements taken as a whole.

Financial Statement Disclosures

Certain financial statement disclosures involve significant judgment and are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures affecting the District's' financial statements relate to:

- As disclosed in Note 11 to the financial statements, the valuation of the District's net pension liability
 and related deferred outflows/inflows of resources are sensitive to the underlying actuarial assumptions
 used including, but not limited to, the investment rate of return and discount rate. As disclosed in Note
 11, a one percent increase or decrease in the discount rate has a material effect on the District's net
 pension liability.
- As disclosed in Note 12 to the financial statements, the valuation of the District's net OPEB liability and
 related deferred outflows/inflows of resources are sensitive to the underlying actuarial assumptions
 used including, but not limited to, the investment rate of return, discount rate, and the healthcare cost
 trend rate. As disclosed in Note 12, a one percent increase or decrease in the discount rate or healthcare
 cost trend rate has a material effect on the District's net OPEB liability.

Significant Difficulties Encountered during the Audit

We encountered no significant difficulties in dealing with management relating to the performance of the audit.

Uncorrected and Corrected Misstatements

For purposes of this communication, professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that we believe are trivial, and communicate them to the appropriate level of management. Further, professional standards require us to also communicate the effect of uncorrected misstatements related to prior periods on the relevant classes of transactions, account balances or disclosures, and the financial statements as a whole. Uncorrected misstatements or matters underlying those uncorrected misstatements could potentially cause future-period financial statements to be materially misstated, even though the uncorrected misstatements are immaterial to the financial statements currently under audit. There were no uncorrected or corrected missstatements identified as a result of our audit procedures.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter, which could be significant to the financial statements or the auditor's report. No such disagreements arose during the course of the audit.

Circumstances that Affect the Form and Content of the Auditor's Report

For purposes of this letter, professional standards require that we communicate any circumstances that affect the form and content of our auditor's report. An emphasis of matter is included in the report regarding the District's adoption of GASB Statement No. 96, Subscription-Based Information technology Arrangements.

Representations Requested from Management

We have requested certain written representations from management which are included in the management representation letter dated December 20, 2023.

Management's Consultations with Other Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters. Management informed us that, and to our knowledge, there were no consultations with other accountants regarding auditing and accounting matters.

Other Significant Matters, Findings, or Issues

In the normal course of our professional association with the District, we generally discuss a variety of matters, including the application of accounting principles and auditing standards, significant events or transactions that occurred during the year, operating conditions affecting the entity, and operating plans and strategies that may affect the risks of material misstatement. None of the matters discussed resulted in a condition to our retention as the District's auditors.

Other Information Included in Annual Reports

Pursuant to professional standards, our responsibility as auditors for other information, whether financial or nonfinancial, included in the District's annual reports does not extend beyond the financial information identified in the audit report, and we are not required to perform any procedures to corroborate such other information. However, in accordance with such standards, we have read the information and considered whether such information, or the manner of its presentation, was materially inconsistent with its presentation in the financial statements.

Our responsibility also includes communicating to you any information which we believe is a material misstatement of fact. Nothing came to our attention that caused us to believe that such information, or its manner of presentation, is materially inconsistent with the information, or manner of its presentation, appearing in the financial statements.

This report is intended solely for the information and use of the Board of Directors, and management of the District, and is not intended to be, and should not be, used by anyone other than these specified parties.

Sacramento, California

RESOLUTION NO. 2024 – 002

Adopted by the Sacramento Metropolitan Air Quality Management District
Board of Directors

UNREPRESENTED PERSONNEL RESOLUTION

BACKGROUND:

- A. The existing Unrepresented Personnel Resolution establishing terms and conditions of employment for unrepresented employees expires on June 30, 2027.
- B. With direction from the Budget and Personnel Committee of the Board, certain benefits for unrepresented employees were discussed and agreed upon by affected employees.
- C. For the purposes of this resolution, management employees are Directors and confidential supervisory employees are the Administrative Services Division Program Manager, Controller, Information Systems Manager, Human Resources Officer, and Administrative Supervisor/Clerk of the Board.
- D. Historically, the Board of Directors (Board) has granted, and desires to continue to establish, the same pay adjustment factors and benefits of employment to the unrepresented employees as those contained in its agreements with employees represented by the Sacramento Air District Employees Association (SADEA).
- E. The new Unrepresented Personnel Resolution is proposed to be for a five-year term, consistent with the proposed agreements with employees represented by SADEA, and includes changes in benefits for the confidential supervisory group.
- F. The Board has established certain benefits that apply to management and confidential supervisory employees including vacation leave payout and administrative leave and, additionally, for management employees a management pay differential and sick leave payout.

BASED ON THE FACTS SET FORTH IN THE BACKGROUND, THE BOARD OF DIRECTORS RESOLVES AS FOLLOWS:

- Section 1. The term of this Unrepresented Personnel Resolution begins on July 1, 2022, and expires on June 30, 2027.
- Section 2. During the term of this Resolution, the terms and conditions of employment contained in executed agreements with the Sacramento Air District Employees Association are extended to management and confidential supervisory employees, while all other terms and conditions of employment will continue to be governed by the District's Human Resources Policies.
- Section 3. Vacation Leave Payout Management and confidential supervisory employees may exchange unused vacation leave for the equivalent cash compensation each fiscal year subject to the limits below and may only cash out the equivalent number of vacation hours as those used during the fiscal year. Compensation for vacation paid out will be for no less than 8 hours per fiscal year. Requests for fractions of an hour are not acceptable.
 - Directors Up to 40 hours per fiscal year
 - Confidential Managers Up to 32 hours per fiscal year
 - Confidential Supervisors Up to 24 hours per fiscal year

- Section 4. Administrative Leave – Management and confidential supervisory employees will receive paid days (a day equals 8 hours) of administrative leave, as indicated below, which is to be used for any purpose desired by the employee and may be taken at any time during the fiscal year.
 - Directors Up to 10 days per fiscal year
 - Confidential Managers Up to 8 days per fiscal year
 - Confidential Supervisors Up to 5 days per fiscal year

The administrative leave will be credited to each eligible employee on the first day of the first full pay period in the fiscal year. Upon employment with the District, all new management or confidential supervisory employees will be credited with a pro-rated amount from the effective date of their employment through the end of the fiscal year.

Any administrative leave not taken by the end of the fiscal year will be lost. Administrative leave has no monetary value; therefore, any unused hours will be canceled upon termination. The employee's manager will authorize the taking of administrative leave subject to the convenience of the District.

The following benefits are approved for management employees (Directors) of the Section 5. District:

> Management Differential – A 5% salary differential is provided to management employees.

> Sick Leave Payout - Sick leave may be accumulated without limitation and management employees will be paid one-half of accrued sick leave upon retirement unless such payment is waived. Sick leave is convertible to PERS retirement service credits.

Section 6. This resolution supersedes all prior resolutions specifying terms and conditions for management and confidential supervisory employees.

ON A MOTION by Director Patrick Hume , seconded by Director Rich Desmond the foregoing resolution was passed and adopted by the Board of Directors of the Sacramento Metropolitan Air Quality Management District on January 25, 2024, by the following vote:

Sarah Aquino, Rich Desmond, Sue Frost, Patrick Hume, Patrick Kennedy, Kevin Ayes:

Papineau, Sergio Robles, and Donald Terry.

ANNOUNCEMENTS

Joint Board of Directors Meeting

Sacramento Area Council of Governments Sacramento Metropolitan Air Quality Management District Sacramento Municipal Utilities District Sacramento Regional Transit District

Location: California State University Sacramento, Harper Alumni Center 6000 J Street, Sacramento, CA

Consistent with California Government Code Section 54953, a meeting of the Board of Directors of the four agencies will be held in person.

The public can attend the meeting at the address noted above.

Provide public comment – comments will be taken on the item at the time it is taken up by the boards.

In-person: Public comment may be made in person at the address noted above. You will have 3:00 minutes to speak. Please complete a speaker form and provide it to the clerk.

Written comments: May be submitted via email to the clerk at rtadevich@sacog.org. Comments requested to be read at the meeting will be limited to 250 words. Comments requested to be distributed to the board will be shared with members if they are received at least 24 hours prior to the meeting. Otherwise they will be shared after the meeting.

Public Communications: Any person wishing to address the boards on any item <u>not</u> on the agenda may do so at the conclusion of the last agendized item.

Agenda Timing: Time durations are estimates only. Action may be taken on any item on this agenda. The boards may take up any agenda item at any time, regardless of the order listed.

Accessibility and Title VI: SACOG, SMUD, SacRT and SMAQMD provide access to all agenda and meeting materials online. The agenda for this joint meeting is available at www.sacog.org and www.sacog.org or by phone at (916) 321-9000. SACOG also provides services/accommodations upon request to persons who are limited-English proficient who wish to address agency matters. For accommodations or translations assistance, please call 916.321.9000, for TDD/TTY dial 711, or email at contact@sacog.org. We require three working days' notice to accommodate your request.

La SACOG, SMUD, SacRT and SMAQMD puede proveer asistencia/facilitar la comunicación a las personas y los individuos con conocimiento limitado del inglés quienes quieran dirigirse a la agencia. Para solicitar asistencia, por favor llame al número 916.321.9000 o para TDD/TTY llame al numero 711, o email a contact@sacog.org. Requerimos que solicite asistencia con tres días hábiles de anticipación para poderle proveer asistencia.

This agenda and attachments are available on SACOG's website at www.sacog.org. The Harper Alumni Center is accessible to the disabled. As required by Section 202 of the Americans with Disabilities Act of 1990 and the Federal Rules and Regulations adopted in implementation thereof, a person who requires a modification or accommodation, auxiliary aids or services in order to participate in a public meeting, including receiving this agenda and attachments in an alternative format, should contact SACOG by phone at 916-321-9000, e-mail (contact@sacog.org) or in person as soon as possible and preferably at least 72 hours prior to the meeting. Parking is available in Lot #9.

PLEDGE OF ALLEGIANCE

CALL TO ORDER/ROLL CALL

Meeting was called to order.

SACOG Directors:

Present: Directors Bains, Bradford, Branscum, Bulahan, Chapman, Desmond, Dowdin Calvillo, Frost, Ghag, Gore, Early (for Guerrero), Joiner, Kozlowski, Loren, Lozano, Sander, Vega (for Stallard), Suen, Thomas, Vang, Villegas, Chair Kennedy, and Ex-Officio Member Fong (for Benipal).

Absent: Directors Burruss, Gayaldo, Harris, Houdesheldt, Jennings, Knisley, Schaefer, West, Vice Chair Saragosa.

SMAQMD Directors:

Present: Directors Daniels, Desmond, Frost, Guerra, Hume, Loloee, Maple, Papineau, Serna, Terry, Vang, Vice Chair Aquino and Chair Kennedy.

Absent: Director Singh-Allen.

SMUD Directors:

Present: Directors Bui-Thompson, Fishman, Kerth, Rose, Tamayo, Vice President Herber and President Sanborn.

Absent: None

SacRT Directors:

Present: Directors: Daniels, Hume, Kozlowski, Loloee, Maple, Serna, Valenzuela, and Chair Kennedy.

Absent: Directors Budge, Singh-Allen, Vice Chair Jennings.

SPECIAL PRESENTATIONS

Welcome (SACOG, SMUD & SacRTD Chair Patrick Kennedy, SMUD President Heidi Sanborn & Sacramento State) (Est. time: 15 minutes)

Welcome opening statement was given by SACOG, SMAQMD and SacRT Chair Patrick Kennedy and SMUD President Heidi Sanborn.

Rita Gallardo Good, Sacramento State Senior Associate Vice President, provided a presentation on local government collaboration.

DISCUSSION CALENDAR

1. Opportunities for Continued Regional Collaboration

Recommendation: Receive and file various presentations for opportunities for

continued regional collaboration.

The following presentations were received and filed:

Rachel Huang, Director of Customer & Grid Strategy for SMUD gave a presentation on Zero Electric Vehicle Deployment Strategy.

Raef Porter, Program Manager at SMAQMD gave a presentation on Federal Opportunities for Regional Collaboration.

Bernadette Austin, CEO of CivicWell gave a presentation on State Opportunities for Regional Collaboration.

Henry Li, General Manager and CEO of SacRT, Alberto Ayala, Executive Director of Sac Metro Air District, Paul Lau, General Manager and CEO of SMUD, and James Corless, Executive Director of SACOG, all gave a presentation on Agency Executives' Perspectives on Opportunities.

2. Consideration of Joint Resolution of Support for Continued Collaboration on Regional Priority Projects

Recommendation: Authorize the Chair to execute a joint resolution of the Sacramento Municipal

Utility District, Sacramento Regional Transit, Sacramento Area Council of

Governments, and the Sacramento Metropolitan Air Quality Management District

in support of continued collaboration on regional priority projects.

PUBLIC COMMENT

The following constituents gave public comment:

Sophia Markowska, Representing Defenders of Wildlife, in support of local agencies collaboration to achieve carbon emission goals.

Rick Codina, Representing Sacramento 350, in support of solar energy. Barbara Leary, in support of local agencies collaboration.

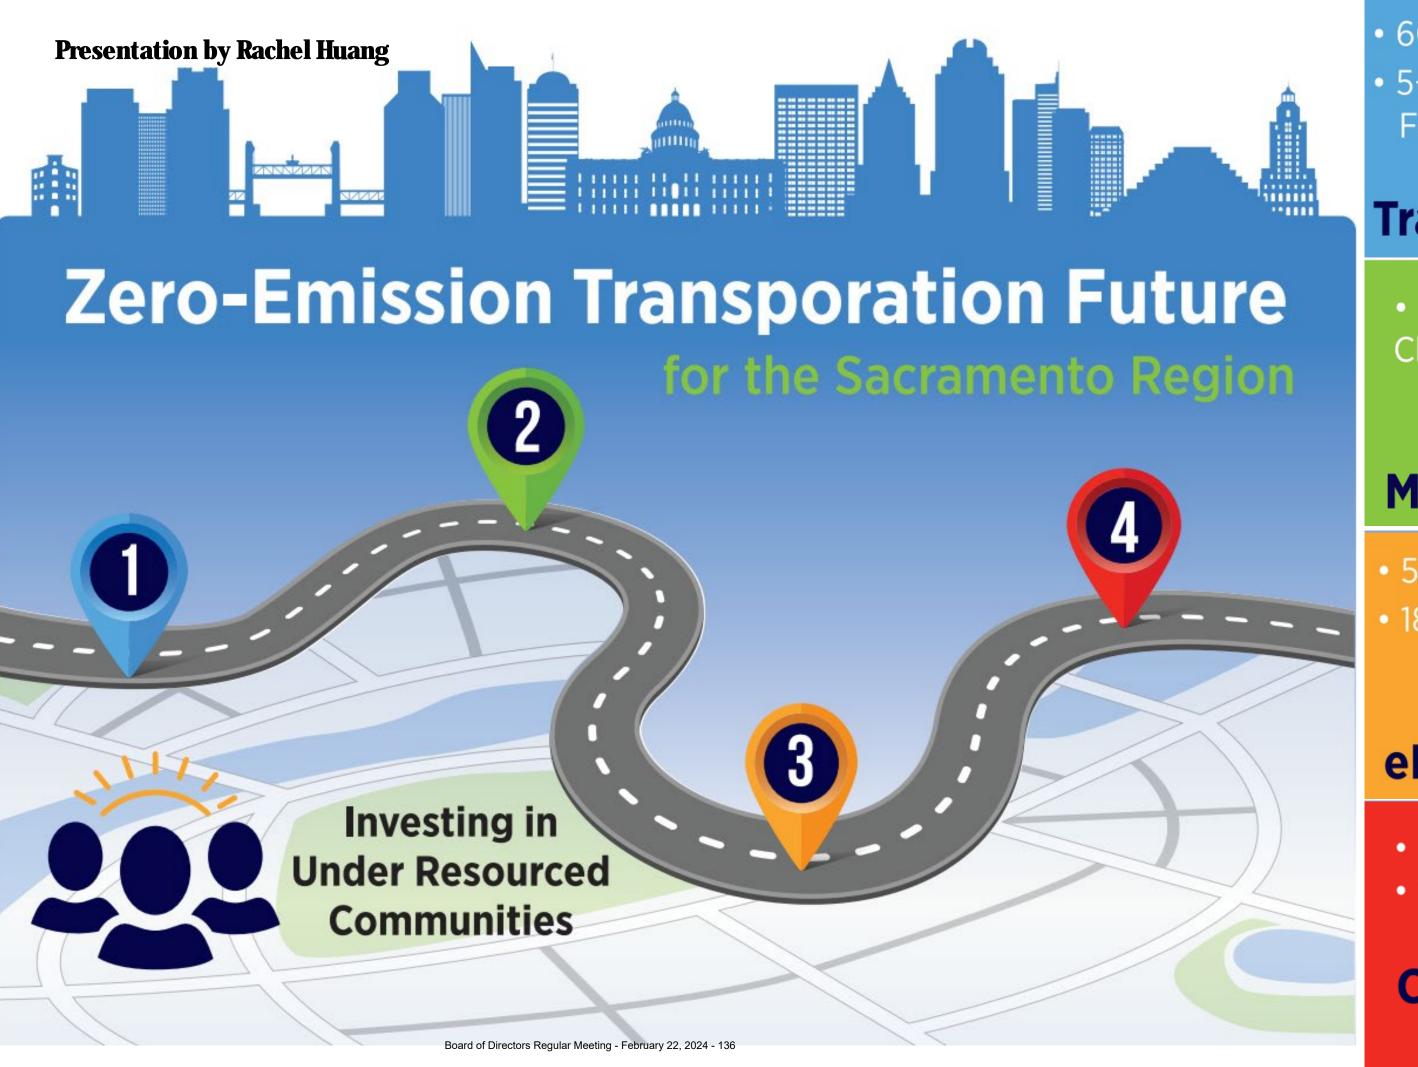

Andrew Fecko, Representing Placer County Water Agency, in support of local agencies collaboration to help achieve carbon emission goals.

Dan Allison, in support of electric bicycles.

Mackenzie Wiesen, Representing Environmental Education Importance, in support of regional collaboration.

Suzan Herre, Representing Environmental Council of Sacramento, in support of regional coordination and collaboration on carbon goals.

RESOLUTION NO. 1 – 2023

JOINT RESOLUTION SACRAMENTO AREA COUNCIL OF GOVERNMENTS, SACRAMENTO REGIONAL TRANSIT DISTRICT, SACRAMENTO METROPOLITAN AIR QUALITY MANAGEMENT DISTRICT, AND SACRAMENTO MUNICIPAL UTILITY DISTRICT

WHEREAS, Sacramento Area Council of Governments, Sacramento Metropolitan Air Quality Management District, Sacramento Regional Transit District, and Sacramento Municipal Utility District ("the agencies") recognize the need for interagency communication and cooperation; and

WHEREAS, the agencies share a vision for a vibrant and thriving Sacramento region for all, and are individually and collectively working towards achieving this vision; and

WHEREAS, it is not possible for any one of the agencies to be successful in its own mission without considering and addressing the impacts and influences on and from the other agencies as well as other local agencies in the six-county region of El Dorado, Placer, Sacramento, Sutter, Yolo and Yuba counties; and

WHEREAS, federal, state and philanthropic programs, policies, regulations and funding encourage coordinated planning and action between organizations functioning within the same region; and

WHEREAS, we are a region at risk of wildfires, floods, extreme heat, and drought., and whereas we need to be a region that's proactively working to both reduce carbon emissions and be prepared for more extreme weather events; and

WHEREAS, in 2021 the agencies through their executives signed a Memorandum of Understanding for the purpose of coordinating land use projects and activities affecting transportation, air quality and climate in the Sacramento region; and

WHEREAS, the governing boards of these agencies wish to further this partnership through a partnership resolution of the governing bodies in the interests of their residents and customers to build on and enhance the existing substantial coordination and cooperation between these organizations;

NOW, THEREFORE, BE IT RESOLVED, that these four agencies will do the following:

1. Support the priority projects being identified by the Climate Pollution Reduction Grants Plan under development in the Sacramento region;

- 2. Maintain the Four-Agency Working Group by having staff leadership from each organization meet at least four times each year to identify issues of common interest and recommend joint activities for consideration by the four governing boards;
- 3. Continue to direct staff expertise and resources to coordinate efforts in the areas of shared responsibility including land use, transportation, air quality, and climate.
- 4. Work together to secure funding for the nearly \$1 billion in ZEV technology and programs to boost the region's clean energy portfolio as called for in the Sacramento Area Zero Emission Vehicle Deployment Strategy;
- 5. Align the state and federal legislative platforms and policy efforts of the four agencies when and where appropriate on topics of mutual interest to the governing boards;
- 6. Pursue additional ways to integrate the staff-work of the four agencies to improve effectiveness and efficiency including the creation of staff-level working groups organized around the topics outlined in this resolution;
- 7. The chief executive of each organization will prioritize resources to further the efforts of the priorities that the four agencies may agree to, and will involve the governing body as appropriate with updates on mutual efforts.

PASSED AND ADOPTED, this 9th day of November 2023, by the following vote of the Board of Directors:

AYES: SACOG Directors:

Directors Bains, Bradford, Branscum, Bulahan, Chapman, Desmond, Dowdin Calvillo, Frost, Ghag, Gore, Early (for Guerrero), Joiner, Kozlowski, Loren, Lozano, Sander, Vega (for Stallard), Suen, Thomas, Vang, Villegas, and Chair Kennedy

Meeting Date: 2/22/2024

Report Type: CONSENT CALENDAR

Report ID: 2024-0222-3.

Title: Contract Authority for Comprehensive Climate Action Plan and Status Report

Recommendation: Authorize the Executive Director/APCO to execute a three-year contract with the successful respondent to the Sac Metro Air District (District) competitive request for proposals for the development of a Comprehensive Climate Action Plan and Status Report consistent with the requirements of the Climate Pollution Reduction Grant program for an amount not to exceed \$361,900, and make minor revisions to the contract, in consultation with District Counsel and within the funding limits, that may be necessary to fully implement its intent.

Rationale for Recommendation: The District received a \$1 million Climate Pollution Reduction Grant from the US Environmental Protection Agency (EPA) to develop a Priority Climate Action Plan (PCAP), a Comprehensive Climate Action Plan (CCAP) and a Status Report. The PCAP is in process and will be submitted to the EPA by March 1, 2024. For the CCAP and Status Report, the District issued a request for proposals on December 4, 2023. The District is currently reviewing the submitted proposals received and will select a contractor soon. The District's Purchasing Policies require Board approval for non-incentive contracts exceeding \$200,000, therefore, this contract requires Board approval.

The CCAP will build on the work of the PCAP by updating the greenhouse gas inventory for the seven-county combined statistical area to reflect post-pandemic datasets, add workforce development elements, create additional greenhouse gas reductions measures, and expand community engagement. Given the specialized nature of some aspects of the work and the limited-term nature of the project, the District decided to utilize consultants to supplement staff efforts.

Presentation: No.

Approvals/Acknowledgements

Executive Director or Designee: Alberto Ayala, Report Approved 2/16/2024

District Counsel or Designee: Kathrine Pittard, Approved as to Form 2/15/2024

Financial Considerations: The total not-to-exceed amount of the contract is \$361,900 for the three-year term and is funded by the Climate Pollution Reduction Grant, administered by the EPA.

Meeting Date: 2/22/2024

Report Type: CONSENT CALENDAR

Report ID: 2024-0222-4.

Title: Designation of District Headquarters for Agency Use Under the California Surplus Land Act

Recommendation: Adopt a resolution designating the District headquarters for "Agency's Use", thereby exempting the sale from the provisions of the California Surplus Land Act eliminating the requirement to offer the property as surplus land to affordable housing organizations or related entities before making it available for sale on the open market.

Rationale for Recommendation: Sales of real property may be subject to the California Surplus Land Act (SLA). The SLA requires local agencies in California, including cities, counties, and special districts, to offer "surplus" land to affordable housing developers, local governments, and certain types of public entities before selling to private developers, unless specific exemptions apply.

The District, in consultation with the California Department of Housing & Community Development (HCD), which oversees the SLA, has determined that the District is exempt from complying with the SLA sale requirements based on the "Agency Use" clause of the SLA, as the property is being used to further the purpose of the District by serving as agency headquarters. The proceeds from the sale will be directed for that same purpose. If all funds generated are not required for that purpose, they will be used to further other District activities central to the agency's mission.

It is the direction of the HCD that the District's Board of Directors adopt a resolution declaring that the use of the land and building is for agency use that directly furthers the express purpose of the agency work or operations.

Presentation: No

ATTACHMENTS:

Resolution - Designation of District Headquarters for Agency Use Under the California Surplus Land Act

Approvals/Acknowledgements

Executive Director or Designee: Alberto Ayala, Report Approved 2/16/2024

District Counsel or Designee: Kathrine Pittard, Approved as to Form 2/15/2024

Discussion / Justification: After thorough consideration and analysis, and with the full support and guidance of the Board of Directors, the District has initiated the sale of its current headquarters and is actively identifying a more suitably sized location. As part of the process, District Counsel and staff have assessed the applicability of the Surplus Land Act to the sale.

The Surplus Land Act in California was created to ensure that surplus public lands are prioritized for affordable housing, parks, open spaces, and other public uses before they are sold to private entities. The aim is to address the shortage of affordable housing and promote public benefit through the use of surplus public lands. Government Code Sections 54220 to 54233 establish the provisions related to the identification, use, and disposal of surplus public lands.

HCD has oversight responsibility for the SLA and has published Surplus Land Act Guidelines as a tool for local agencies to navigate the requirements set forth by the SLA, ensuring that surplus public lands are utilized to benefit the community in accordance with the law. The District consulted with HCD to determine whether a sale of the District headquarters is subject to the Act. HCD has stated that the sale is not subject to the SLA sale restrictions.

Section 103 of the Surplus Land Act Guidelines exempts sales of real property used by the agency for specific purposes. For all non-transportation agencies, such as the District, these exempt uses may include nongovernmental office development or sales for the "investment or generation of revenue" if the governing board takes action at a public meeting declaring that the sale will directly further the express purpose of agency work or operations. In this case, the building itself directly furthers the District's purpose as it houses the District offices. The sale proceeds will be used to secure future office space or be directed into District programs.

The District has received an offer for the Headquarters building and is presently engaged in negotiations with a potential buyer. To ensure transparency and well-informed decisions, the Administrative Headquarters Facility Ad Hoc Committee, formed during the May 25, 2023, Board of Directors meeting, is being kept updated. The Committee's role is to provide advice to District staff regarding the assessment and evaluation of options for the administrative facility. Additionally, it will make recommendations to the full Board of Directors regarding the proposed facility plan.

With the unanimous support of the Ad Hoc Committee, staff presented to the full Board on October 26, 2023, its intention to sell the current facility and lease or purchase a facility of a more appropriate size. The rationale behind this decision included, among other things, a favorable financial outcome, an opportunity for the District to step out of the landlord business and focus resources on the business of air quality, and "right-sizing" the District's footprint taking into account a reduced space requirement in a hybrid work environment.

RESOLUTION NO. 2024 – XXXX

Adopted by the Sacramento Metropolitan Air Quality Management District

Board of Directors

DESIGNATION OF DISTRICT HEADQUARTERS FOR AGENCY USE UNDER THE CALIFORNIA SURPLUS LAND ACT

BACKGROUND:

- A. Sales of property by local agencies may be subject to the California Surplus Land Act (SLA).
- B. The SLA, with oversight responsibility by the California Department of Housing and Community Development (HCD), requires local agencies in California, including cities, counties, and special districts, to offer "surplus" land to affordable housing developers, local governments, and certain types of public entities before selling to private developers, unless specific exemptions apply.
- C. With the full support and guidance of the Board of Directors, the District has initiated the sale of its current Administrative Headquarters while actively identifying a more suitably sized location, and therefore assessed the applicability of the SLA.
- D. The Administrative Headquarters at 777 12th Street in Sacramento, California, including the land and building, is owned by the District and directly supports the agency's core functions as the current headquarters, and the revenue generated from renting office space is utilized to fund the building and its operation.
- E. Based on the use of the Headquarters building and the intended future use of the sale proceeds, the District, in consultation with HCD, has determined that the future sale of its current Administrative Headquarters is exempt from the SLA requirement to offer the land to certain agencies prior to proceeding with the sale.
- F. To ensure qualification for the exemption, the HCD has recommended that the District Board of Directors adopt a resolution declaring that the land is for agency use and that its use directly furthers the express purpose of the agency's work or operations under Government Code Section 54221(c)(1).

BASED ON THE FACTS SET FORTH IN THE BACKGROUND, THE BOARD OF DIRECTORS RESOLVES AS FOLLOWS:

- Section 1. The land and building at 777 12th Street in Sacramento, California, is owned by the District and directly furthers the express purpose of agency work and operations because it serves as the current agency headquarters and proceeds for the rental of office space are used to finance the building and maintain the District offices.
- Section 2. The proceeds from selling the property at 777 12th Street, Sacramento, California, will be used to acquire or lease another property supporting the agency's goals, with any extra funds earmarked for future rent and/or continuity of essential District operations.

Clerk, Board of Directors Sacramento Metropolitan Air Quality Management District **Meeting Date: 2/22/2024**

Report Type: DISCUSSION / INFORMATION

Report ID: 2024-0222-5.

Title: City of Sacramento Incentive Contract and Other Opportunities for Investments in Electrification and the

Clean Energy Transition

Recommendation: Authorize the Executive Director/Air Pollution Control Officer to execute agreements under the Low Emission Vehicle Incentive Program with the City of Sacramento for an amount not to exceed to \$3,000,000 for the purchase and installation of electric vehicle chargers associated with the City of Sacramento's EV Blueprint Project, and; receive and file a report on the next incentive solicitation totaling over \$15,000,000 for various investments in electrification and the clean energy transition including commercial lawn and garden equipment, zero-emission infrastructure, off-road, on-road, and micro-transit vehicles.

Rationale for Recommendation: The District's purchasing authority for incentive contracts requires Board approval when an incentive contract exceeds \$1,000,000. Consequently, the incentive award to the City of Sacramento requires Board approval. Funding this project helps promote zero-emission vehicle fueling infrastructure in the Sacramento region. Additionally, staff would like to inform the Board of Directors about the upcoming incentive solicitation so the Board can help spread the word on opportunities for clean vehicle, equipment, and infrastructure incentives.

Contact: Mike Neuenburg, Transportation and Climate Change Program Supervisor, 916-531-1119

Presentation: Yes

ATTACHMENTS:

Presentation: City of Sacramento Incentive Contract and Other Opportunities for Investments in Electrification and the Clean Energy Transition

Approvals/Acknowledgements

Executive Director or Designee: Alberto Ayala, Report Approved 2/16/2024

District Counsel or Designee: Kathrine Pittard, Approved as to Form 2/16/2024

Discussion / Justification: The California Energy Commission awarded funds to the City of Sacramento to help it implement its Electric Vehicle Blueprint project. That project will include electric vehicles, bike share, and electric vehicle chargers at 13 library and community center sites throughout Sacramento. Some of these sites will house Our Community Carshare electric vehicles to support carsharing for low-income community members. Board approval of this item will provide an additional \$3,000,000 incentive funds for the purchase and installation of the electric vehicle chargers, also in support of the City's Blueprint project.

The Air District will be opening a project incentive solicitation totaling over \$15,000,000 for various investments in electrification and the clean energy transition including commercial lawn and garden equipment, zero-emission infrastructure, off-road, on-road, and micro-transit vehicles. The solicitation will be open within the next 60 days.

Financial Considerations: The total estimated project cost for the purchase and installation of electric vehicle chargers associated with the City of Sacramento's EV Blueprint is approximately \$4,000,000; the District incentive award is up to but will not exceed \$3,000,000 towards this project. The funding for the City of Sacramento award and the upcoming solicitation are funded from one or more of the following: Carl Moyer Grant Program, Community Air Protection Funding Program, Department of Motor Vehicles Surcharge, and the

Sacramento Emergency Clean Air Transportation (SECAT) Program. There is sufficient funding in the approved Fiscal Year 2023/24 budget to fund these projects.

Title: New National Ambient Air Quality Standard for Particulate Matter

Recommendation: Receive and file an update on the new National Ambient Air Quality Standard for annual PM2.5 concentration.

Rationale for Recommendation: The U.S. Environmental Protection Agency (EPA) has adopted a new lower National Ambient Air Quality PM2.5 standard (PM NAAQS) effective February 7, 2024, and this report is to inform the Board of the impacts on the Sacramento region. While the District is in attainment of the prior annual standard of 12.0 ug/m3, the District will likely be designated as nonattainment, along with many other areas of the country, for the newly adopted standard of 9.0 ug/m3. Designations and boundaries for nonattainment areas will be determined over the next 2 years and finalized by February 6, 2026.

Contact: Mark Loutzenhiser, Director of Monitoring, Planning and Rules, 279-207-1122

Presentation: Yes **ATTACHMENTS**:

Presentation: New National Ambient Air Quality Standard for Particulate Matter

Approvals/Acknowledgements

Executive Director or Designee: Alberto Ayala, Report Approved 2/16/2024

District Counsel or Designee: Kathrine Pittard, Approved as to Form 2/15/2024

Discussion / Justification: In early 2023, EPA proposed to strengthen the PM NAAQS, a reconsideration of the December 2020 decision to retain the existing PM NAAQS. EPA reconsidered based on information indicating that the existing standards may not adequately protect public health. There is both a daily and an annual average PM2.5 standard, and while this reconsideration did evaluate both limits, EPA ultimately decided to lower only the annual and retain the existing daily limit.

Financial Considerations: District staff will work with the California Air Resources Board and neighboring Air Districts on the proposed attainment status and boundaries. Once formally designated, staff time will be committed for development of a State Implementation Plan (SIP) for the region's plan to achieve the new PM2.5 standard.

New National Ambient Air Quality Standard for Particulate Matter

Katherine Chin-Chiu, Statistician Monitoring, Planning, and Rules Division Board Meeting, February 22, 2023

PM_{2.5} NAAQS - Daily and Annual Average Limit

Why PM_{2.5}?

Penetrates deep into the lungs impacting cardiovascular and respiratory systems and other organs

Annual PM $_{2.5}$ Standard officially lowered 25% from 12.0 to 9.0 $\mu g/m^3$

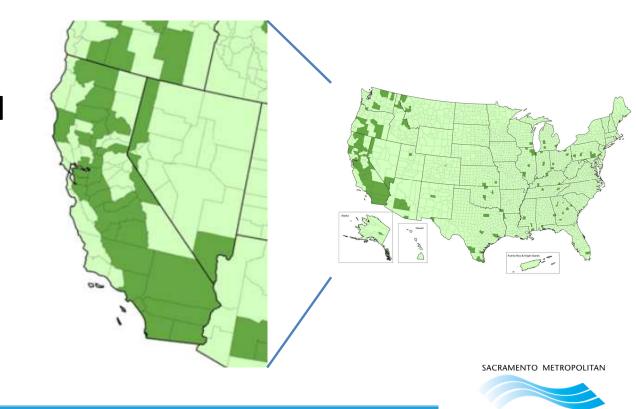

No change to Daily $PM_{2.5}$ Standard of 35 $\mu g/m^3$ or secondary standards

Impact Nationally and California

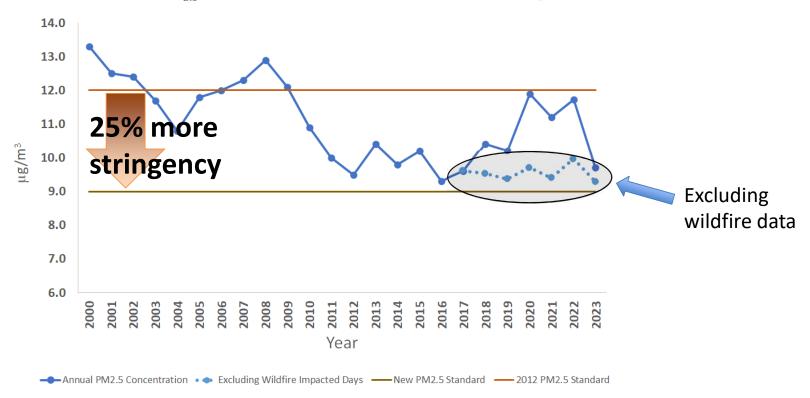

EPA's initial assessment:
Non-attainment of
proposed standard based
on 2020-2022 data

Sacramento region will likely be designated as nonattainment.

Local Annual PM_{2.5} Concentration

Peak Annual PM_{2.5} Ambient Concentration in the Sacramento Region

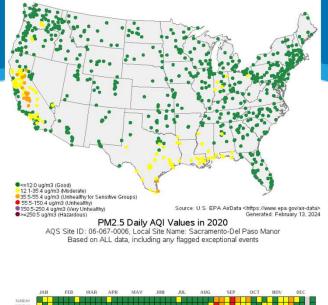

Data Source: EPA 2005-2022 AQS data downloaded on October 6, 2023. Filtered for potential WF days flagged in AQS. Preliminary 2023 data was downlowded from CARB's AQMIS on January 18, 2024. 2023 data has not yet been certified.

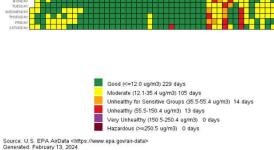

Additional Guidance and Changes

Any future new monitoring stations should consider disadvantaged communities in determining locations

EPA developed Exceptional Event Analysis and Visualization Tools to help evaluate exceptional events (wildfires)

PM2.5 AOI Values by site on 09/01/2020

Report ID: 2024-0222-7.

Title: Temporary Appointment of a CalPERS Retiree as Interim Director of Administrative Services

Recommendation: Adopt a resolution to appoint Jamille Moens as a retired annuitant on an interim basis to the District's vacant position of Director of Administrative Services under the California Public Employees' Retirement System (CalPERS) exception to the 180-day wait period, per Government Code § 7522.56 and § 21221(h).

Rationale for Recommendation: CalPERS retirees are typically subject to a 180-day wait period before engaging in post-retirement work. However, Government Code Sections 7522.56 and 21221(h) provide an exception to this rule, allowing for the appointment of retirees on an interim basis during the recruitment process to fill a vacant position.

Ms. Moens, the District's Director of Administrative Services, is scheduled to retire on February 24, 2024. The Executive Director / Air Pollution Control Officer executed a contract with an executive search firm in September 2023 for the recruitment of the Director of Administrative Services, with recruitment efforts beginning in October 2023; the recruitment remains underway. Given the critical nature of this position and the various ongoing administrative initiatives within the organization, it is imperative to appoint Ms. Moens as the Interim Director of Administrative Services, as a retired annuitant, for a limited duration of up to six months to ensure continuity and effective leadership during this transitional period.

The Director of Administrative Services plays a pivotal role in the organization, overseeing numerous essential functions and providing guidance on key initiatives such as the implementation of a sophisticated permitting and billing system, conducting a comprehensive classification and compensation study, facilitating efforts to relocate to a new District headquarters, and development of the FY2024/25 Proposed Budget among others. The interim appointment of Ms. Moens will allow the District to maintain the momentum of these critical projects, ensure seamless operations during the recruitment process for a permanent replacement, and facilitate a smooth transition in leadership.

To proceed with this interim appointment, the Board must adopt a resolution certifying the necessity of Ms. Moens' employment and acknowledging that her appointment is crucial to filling a critical need within the organization before the expiration of the 180-day wait period.

RESOLUTION NO. 2024 - XXXX

Adopted by the Sacramento Metropolitan Air Quality Management District
Board of Directors

AUTHORIZATION FOR 180-DAY WAIT PERIOD EXCEPTION FOR CALPERS RETIREE GOVERNMENT CODE SECTIONS 7522.56 & 21221(h)

BACKGROUND:

- A. In compliance with Government Code section (G.C. §) 7522.56 of the Public Employees' Retirement Law, the Sacramento Metropolitan Air Quality Management District Board of Directors (Board) must provide CalPERS this certification resolution when hiring a retiree before 180 days have passed since their retirement date.
- B. Jamille Moens, CalPERS ID #2613332835, will retire from the Sacramento Metropolitan Air Quality Management District (District) in the position of Director of Administrative Services, effective February 24, 2024.
- C. G.C. § 7522.56 requires that post-retirement employment commence no earlier than 180 days after the retirement date, which is August 24, 2024, without this certification resolution.
- D. G.C. § 7522.56 provides that this exception to the 180-day wait period will not apply if the retiree accepts any retirement-related incentive.
- E. The Board, District, and Jamille Moens certify that Jamille Moens has not and will not receive a Golden Handshake or any other retirement-related incentive.
- F. An appointment under G.C. § 21221(h) states the retiree may be appointed on an interim basis during recruitment for a permanent appointment if the position requires specialized skills.
- G. The Director of Administrative Services requires specialized skills in overseeing budget preparation and personnel, as well as several large scale technological programmatic updates and the sale and relocation of the District's primary offices.
- H. The Executive Director / Air Pollution Control Officer executed a contract with an executive search firm in September 2023 for the recruitment of the Director of Administrative Services, which remains underway.
- I. The Board of Directors hereby appoints Jamille Moens as an interim appointment retired annuitant to the vacant position of Director of Administrative Services for the District under G.C. § 21221(h), effective March 4, 2024.
- J. This G.C. § 21221(h) appointment will only be made once and therefore will end on September 3. 2024.

- K. The entire employment agreement, contract, or appointment document between Jamille Moens and the District has been reviewed by this body and is attached as Exhibit A.
- L. No matters, issues, terms, or conditions related to this employment and appointment have been or will be placed on a consent calendar.
- M. The employment will be limited to 960 hours per fiscal year.
- N. The compensation paid to retirees cannot be less than the minimum nor exceed the maximum monthly base salary paid to other employees performing comparable duties, divided by 173.333 to equal the hourly rate.
- O. The minimum base salary for this position is \$12,144.96 (hourly equivalent is \$69.80) and the maximum is \$16,274.93 (hourly equivalent is \$93.53).
- P. The hourly rate paid to Jamille Moens will be \$93.53, which is the same rate currently paid for this position.
- Q. Jamille Moens has not and will not receive any other benefit, incentive, compensation in lieu of benefit or other form of compensation in addition to this hourly pay rate.

BASED ON THE FACTS SET FORTH IN THE BACKGROUND, THE BOARD OF DIRECTORS RESOLVES AS FOLLOWS:

Section 1. The Board of Directors hereby certifies the nature of the employment of Jamille Moens as described herein and detailed in the attached offer letter and that this appointment is necessary to fill the critically needed position of Director of Administrative Services for the District by March 4, 2024, because the position requires specialized skills and expert oversight and leadership for the daily operations of the Administrative Services Division and advanced knowledge and expertise for continued progress toward key projects and initiatives.

Section 2. Exhibit A is attached to and part of this resolution.

ATTEST:

ON A MOTION by Director, seconded by Director, the foregoing resolution was passed and adopted by the Board of Directors of the Sacramento Metropolitan Air Quality Management District on February 22, 2024, by the following vote:
Ayes:
Noes:
Abstain:
Absent:

RE: Interim Employment Offer

Dear Jamille,

Jamille Moens

The Sacramento Metropolitan Air Quality Management District is offering you a temporary position of Interim Director of Administrative Services, as a retired annuitant while the recruitment to fill the regular position is underway.

Vacant interim employees do not receive any District benefit programs, including commute pay. This does not include any benefit mandated by state or federal law.

As a retired annuitant you are permitted to work up to 960 hours per fiscal year. Please refer to "A Guide to CalPERS Employment After Retirement" for additional requirements and details, located here: https://www.calpers.ca.gov/docs/forms-publications/employment-after-retirement.pdf

The rate of pay being offered to you is \$93.53 per hour. The effective date of your employment is March

Facilities to contact manifestory have any supertions		
than six (6) months.		
4, 2024, or the date on which CalPERS certifies the appoi	ntment, whichever is later, and will la	ast no more

Feel free to contact me if you have any questions.
Thank you,
Denise Booth Human Resources Officer
By signing below, I accept this offer of employment, certify that I have not received unemployment insurance payments for prior retired annuitant work for any CalPERS employer within twelve (12) months prior to this appointment date, and agree to comply with the CalPERS requirements related to post-retirement employment.

Date

Temporary Appointment of a CalPERS Retiree as Interim Director of Administrative Services

Board of Directors February 22, 2024

Presenter: Denise Booth
Human Resources Officer

Background

- ❖ Jamille Moens, the current Director of Administrative Services, is retiring February 23, 2024
- Recruitment began in October 2023 and is ongoing
- CalPERS has 180-day waiting period before retirees can return as retired annuitants
- One exception to the 180-day waiting period is for vacant key positions

Director of Administrative Services

Oversight

- Communications
- Finance
- General Administration
- Human Resources
- Information Services

Key Initiatives

- AiriA (permitting & billing system)
- Class & Comp Study
- Headquarters Sale and Relocation

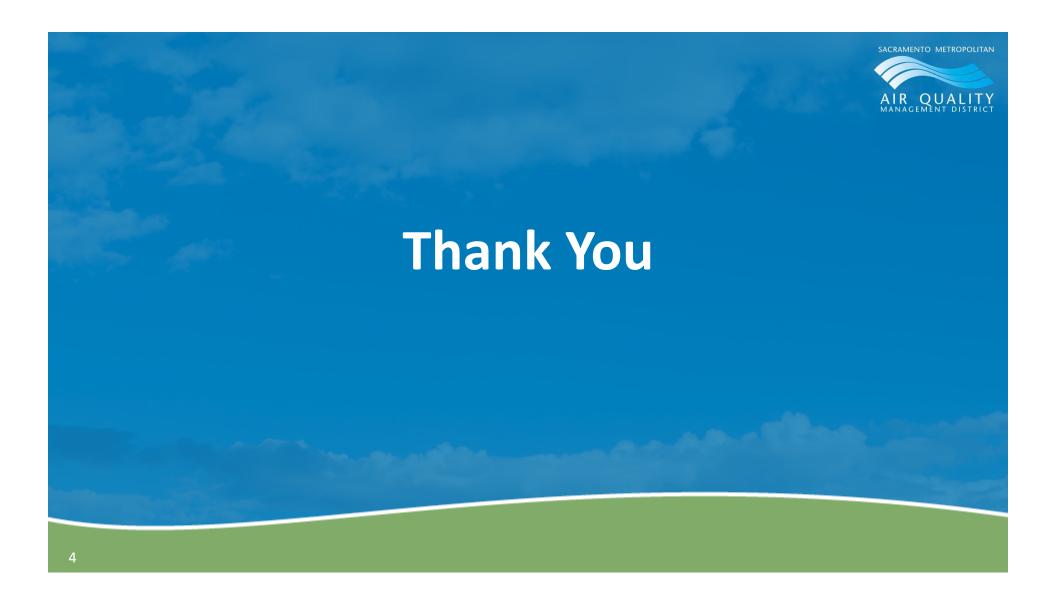

Board Resolution Required for Exception to 180-Day Rule

- Authorizes the hire of Jamille Moens as a retired annuitant within the 180 days after her CalPERS retirement begins
- Allows her to work no more than 960 hours per fiscal year
- Up to 6 months or when new Director starts, whichever comes first

CalPERS Review also Required

- Signed resolution and supporting documents to be submitted for review
- HR will request an expedited process
- If PERS determines the employment is compliant, employee can begin

Meeting Date: 2/22/2024

Report Type: DISCUSSION / INFORMATION

Report ID: 2024-0222-8.

Title: Appointment of Board Members to the Budget and Personnel Committee of the Board

Recommendation: Pass a motion selecting and appointing two Board members in addition to the Chair, Vice Chair and Past Chair to the Budget and Personnel Committee.

Rationale for Recommendation: As needed, the Board appoints Board members to serve on standing committees of the Board for a specified period. Currently, the Budget and Personnel Committee members' terms are for two years.

The Budget & Personnel Committee hears matters related to District finances and human resources including contract negotiations, District budgets and personnel matters. In the past, the Budget and Personnel Committee has consisted of the Chair, Vice Chair, Past Chair and two additional Board members for a total of 5 members.

The following board members were appointed to the Budget and Personnel Committee on January 26, 2023: Chair Patrick Kennedy, Vice-Chair Sarah Aquino, Directors, Eric Guerra, Donald Terry, and Bobbie Singh-Allen. One of the prior committee members, Bobbie Singh-Allen is no longer on the Board of Directors. Staff recommends that the Board reappoint the existing members, and appoint one new member, all to serve the remainder of 2024.

Report Type: DISCUSSION / INFORMATION

Report ID: 2024-0222-9.

Title: Hearing Board Vacancies Notifications

Recommendation: Receive and file an informational report notifying the Board that both the Medical and Engineering Profession positions of the Hearing Board are vacant as of January 23, 2024.

Rationale for Recommendation:

Section 40800 of the California Health and Safety Code requires that the Board of Directors establish and maintain a hearing board. The hearing board consists of five members, one attorney, one professional engineer, one medical professional, and two members of the general public. Each member is appointed by the Board of Directors for a three-year term.

There are currently 2 vacancies that need to be filled as follows:

- The Member from the Medical Profession whose specialized skills, training, or interests are in the fields of environmental medicine, community medicine, and occupational/toxicologic medicine.
- The Professional Engineer must be registered as such pursuant to the Professional Engineers Act Chapter 7 (commencing with Section 6700) of Division 3 of the Business and Professions Code.

District staff has published and distributed updated Public Service Opportunity announcements on February 11, 2024, with the recruitment open until filled. If necessary, applicants for this vacancy will be referred to the Hearing Board Nomination committee for the selection process. District staff will continue to facilitate this process until these vacancies are filled.

Presentation: Yes

ATTACHMENTS:

Attachment A: Sac Metro Air District Hearing Board Detail

Approvals/Acknowledgements

Executive Director or Designee: Alberto Ayala, Report Approved 2/16/2024

District Counsel or Designee: Kathrine Pittard, Approved as to Form 2/15/2024

Discussion / Justification: The Hearing Board meets monthly on an as needed basis (on average 2 to 3 times per year), to hear and decide petitions for variances from District rules, regulations, and permit requirements. This Board also hears petitions for abatement orders and appeals from permitting decisions made by the Air Pollution Control Officer. Each member is compensated \$75 per hearing. See attached Hearing Board Detail for an in-depth description of Sac Metro Air District Hearing Board's responsibilities which is an excerpt from July 25, 2019 Board of Directors Meeting.

A Hearing Board Nomination Committee was established to assist in the process of nominating finalists for

Board consideration to serve on the Hearing Board. At the January 26, 2023 meeting, Chair Patrick Kennedy selected Vice-Chair Sarah Aquino and Eric Guerra to serve with him on this Committee for a term of two years, commencing January 2023 and ending December 2025.

The Hearing Board Member of the Medical Profession member's term expired on January 23, 2024. A Public Notice along with a Job Bulletin was published/distributed on October 26, 2023. Dr. Stephen Weyers, who served dedicatedly on the Hearing Board since 1980, has retired, and no applications were received by the closing date in November 2023.

In late December, the District was informed of the passing of long-term Hearing Board Professional Engineer member, John German, on December 13, 2023, who served dedicatedly on the Hearing Board since 1995. A new Public Notice announcing the two Hearing Board vacancies along with corresponding Job Bulletins were published on January 9, 2024. No applications have been received.

With no response to the 2 previous Public Notices/Job Bulletins, District staff has revamped the "Public Notices/Job Bulletin" to "Public Service Opportunity (PSO)" for the Hearing Board Members and created a new promotional email announcement which includes the Hearing Board Detail attachment for distribution. The Public Service Opportunity notice was published in the Sac Bee on February 11, 2024, and emailed to the Sac Metro Air District Board members, various county council members, city managers, planning commission members and other public entities. Also, aggressive outreach is being made to both medical and engineering individuals/entities to solicit interest in these voluntary positions.

Staff has marked the closed date for this Public Service Opportunity notice as March 31, 2024.

Attachment A

Sac Metro Air District Hearing Board Excerpt from 7/25/2019 Board of Directors Meeting

Section 40800 of the California Health and Safety Code requires that the Board of Directors establish and maintain a hearing board. The Hearing board consists of five members: one attorney, one professional engineer, one medical professional, and two members of the general public. Each member is appointed by the Board of Directors for a three-year term.

The Hearing Board meets monthly or on an as needed basis, to hear and decide petitions for variances from District rules, regulations, and permit requirements. This Board also hears petitions for abatement orders and appeals of permitting decisions and emission reduction credit determinations made by the Air Pollution Control Officer. Below is a description of common Hearing Board actions.

Variances

To grant a permit variance, the Hearing Board must make 6 findings. These include findings that:

- 1. Due to conditions beyond the facility's control, requiring compliance would result in an arbitrary or unreasonable taking of property, or the practical closing or elimination of a business;
- 2. The closing or taking would be without a corresponding air quality benefit; and
- 3. The facility has given consideration to curtailing operations in lieu of a variance.

The Hearing Board may impose conditions on the variance that are in addition to the requirements imposed by law or regulation, so long as the conditions are not more onerous than the applicable requirements. Conditions are generally aimed at reducing excess emissions during the variance period. Any variances that will be in effect for more than a year must include increments of progress detailing the steps to be taken to achieve compliance. Variances, except for emergency variances, must be publicly noticed, and the variance hearing is open to the public, which can offer comments and oppose the petition. Emergency variances may be heard by the Board Chair or designee, and may be granted "for good cause." The District regulations restrict emergency variances to breakdowns of pollution control equipment and related equipment.

The District must forward the permit variance Findings and Orders to the Air Resources Board (ARB), which may revoke or modify the variance if it determines the variance does not meet the terms of the Health and Safety Code. ARB must hold a public hearing before revoking or modifying the Variance Findings and Orders.

The Hearing Board is also authorized to issue product variances for manufacturers of products that cannot meet regulatory requirements. The findings and process are similar to those for permit variances, but there is no requirement to forward the Findings and Orders to the ARB.

Abatement Petitions

In contrast to variances, which are filed by facilities seeking penalty relief, abatement petitions are enforcement actions filed by the District, seeking to limit or eliminate operations at a facility violating one or more legal requirements. The District and source may also stipulate to the issuance of an abatement order. In a stipulated proceeding, the source does not admit to the existence of a violation, but agrees to change its operations in the manner requested by staff. The Hearing Board must provide 30-days pubic notice prior to holding a hearing on the Abatement Petition.

There is no requirement to submit the Abatement Order to the ARB. If a source against whom an Order has been issued wishes to challenge the Order, they must file an action in the Sacramento County Superior Court.

The Health and Safety Code was amended in 2018 to authorize the Air Pollution Control Officer to issue an Interim Order if a facility's activities pose an imminent and substantial endangerment to public health, welfare, or the environment. Interim Orders are effective upon notice to the facility, but if the facility challenges the Order, the APCO must hold a public hearing before the Hearing Board as soon as possible and no later than 30 days after receipt of the challenge. District staff previously summarized these new provisions for the Board of Directors in October 2018, shortly after they were adopted by the legislature.

Permit and Emission Reduction Credit Appeals

Permit and emission reduction credit appeals are rare. Staff works hard with permit applicants to craft conditions that implement required standards without unduly impinging on operations or adding to project costs. Members **of** the public can also file appeals to the issuance of a permit if they believe the permit does not adequately protect the public.

Facilities may apply to the District for emission reduction credits if they shut down an emission source or reduce emissions below required levels. Credits may be used to offset emissions from new sources of air pollution or changes in operation. If the District refuses to issue emission reduction credits, or approves fewer credits than an applicant requested, the decision can be appealed to the Hearing Board. The District will only issue credits for actual emission reductions that are "surplus," meaning that the applicant has reduced emissions beyond the level required by existing regulations, and that the credits are real, enforceable, quantifiable, and permanent.

Meeting Date: 2/22/2024

Report Type: AIR POLLUTION CONTROL OFFICER'S REPORT

Report ID: 2024-0222-10.

Title: Air Pollution Control Officer Presentation

Recommendation: Receive and file a presentation from the Air Pollution Control Officer, including the following topics: Facilities Update; Capitol-to-Capitol; In the Community - Lunar New Year Celebration; and US EPA Regional Administrator Visit to Sacramento.

Rationale for Recommendation: A primary responsibility of the Air Pollution Control Officer / Executive Director (APCO) is to keep the Board of Directors informed of important or incidental matters related to the Air District. Therefore, the APCO regularly presents to the Board during public meetings noteworthy items such as past successes, progress of current activities and future endeavors, updates regarding relevant legislation, anticipated media events, and material internal changes.
