Supplemental Environment Project Settlement Advisory

The Sacramento Metropolitan Air Quality Management District reached a settlement with the following permitted source on June 22, 2021:

Permitted Source: Booster Fuels
Address of Violation: Various, Sacramento County
Penalty Amount: \$285,000
Violation: Rule 201 & Rule 449 (Fueling vehicles without an onboard refueling vapor recovery system)

These penalties were reached through the District’s Mutual Settlement Program, a voluntary program designed to resolve violations without the time and expense of litigation.

Of the settlement funds, \$142,500 will be used to help support the District’s mission of improving air quality in the Sacramento region. The additional \$142,500 will fund two Supplemental Environmental Projects:

Midtown Association - \$85,600

Midtown Association’s mission is to make Midtown the center for culture, creativity, and vibrancy in Sacramento’s urban core. **Project:** Purchasing two electric vehicles for their Clean and Safe program, a solar generator for the Midtown Farmers Market and installing bike racks and drought-resistant landscaping as part of the association’s Alhambra Plan.

350 Sacramento - \$56,900

350 Sacramento focuses on reducing greenhouse gas emissions and air pollution in the Sacramento region. **Project:** Educational materials and air filter construction events for low-income communities.
