

# COMMUNITY AIR PROTECTION PROGRAM

## COMMUNITY DRIVEN

Every part of the community air protection program is guided by the community.

You can get involved by attending public steering committee meetings, learning more about air quality and educating your neighbors and friends.

## COMMUNITY AIR MONITORING

Community air monitoring provides real-time air quality information, establishes a baseline for goal-setting and tracks progress towards goals

## LOCAL STRATEGIES IMPLEMENTATION

Local strategies are implemented to achieve air quality goals

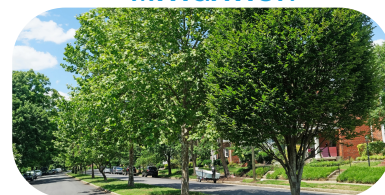

### RULE MAKING

### ENFORCEMENT

### MITIGATION

### INCENTIVES

### PERMITTING

### LAND USE

## AIR QUALITY IMPROVEMENT

Air quality is improved through the process of goal setting, air monitoring and strategy implementation
