

LET'S WORK TOGETHER FOR CLEANER AIR!

Reduce Air Pollution

New state funding is now available to help develop a **Community Emissions Reduction Program (CERP)** for South Sacramento-Florin!

Help develop a plan to tackle your top air quality concerns. This will create a **healthier neighborhood and clean air for all!**

Improve Public Health

Compared to other areas in California, your neighborhood has **higher rates of:**

- Asthma
- Cardiovascular Disease
- Low Birth Weight
- Traffic Pollution
- Diesel Pollution

South Sacramento-Florin was selected as **1 of 19 communities** in the state to improve air quality in neighborhoods **hit hardest by air pollution.**

AIR POLLUTION & HEALTH

The two most common air pollutants are ground-level ozone and particulates. Air pollution occurs when harmful gases, dust, or smoke enter the atmosphere. They harm people, animals, and the planet. Air pollution can increase the risk of serious health problems.

Respiratory illness, coughing, wheezing or asthma

Watery or irritated eyes

Fatigue and dizziness

Heart Attack or chest pain

Difficulty fighting infection

Premature death

Sac Clean Air

BREATHE HEALTHY. BE HEALTHY.

WHO WE ARE

The South Sacramento/Florin Air Quality Steering Committee was formed in 2018 as part of the Sac Metro Air District's Community Air Protections Program. It is made up of residents, workers, business owners, and representatives from our area.

— OUR GOAL

EDUCATE, MOTIVATE and INITIATE actions

to reduce air pollution exposure and improve health outcomes in our communities.

WHAT WE HAVE DONE

The Steering Committee worked with the Sac Metro Air District to **measure air pollution** in the South Sacramento-Florin area. The air quality data will improve understanding of local air pollution. It will help **guide actions** to reduce emissions and exposure in the community.

— WHAT WE ARE DOING NOW

The Steering Committee is working to reduce air pollution and improve health. These efforts will focus on practical solutions, targeted investments, and community outreach. To do this, **we need your help!**

HOW YOU CAN HELP

Tell us **your concerns** about air pollution in your community.

Help **get the word out** to your family and friends.

Attend our meetings either **virtually or in-person**.

Become a **member** of our Steering Committee.
