

PUBLIC COMMENT PERIOD & WORKSHOP: SOUTH SACRAMENTO-FLORIN CERP

After more than two years of working with residents, community groups, and local partners, the South Sacramento–Florin Community Emissions Reduction Plan (CERP) is now open for public comment.

This draft plan is based on what the community shared, local air quality data, and ideas gathered through meetings, workshops, and activities with the Community Steering Committee.

CERP Public Workshop (Multi-Language)

January 31 | 10:30 a.m. – 12:00 p.m.

Zoom at: <https://us06web.zoom.us/j/83017691495>

No Registration Required

At this workshop, you can:

- Learn how community feedback helped shape the plan
- Review the actions proposed to reduce air pollution
- Ask questions and share comments with Air District staff
- Learn how to submit written comments

This workshop is open to anyone who lives, works, or is interested in improving air quality and public health in South Sacramento–Florin. Live interpretation in Spanish, Vietnamese, Hmong, and Farsi is scheduled to be available.

YOUR VOICE MATTERS.

Your feedback will help guide actions to improve air quality and protect health in South Sacramento–Florin.
