**Categories:** Rule 207

Hi Marc,

In followup to our phone conversation this afternoon, (and so that you, Aleta, and Brigitte had my contact info, below), I had a couple minor comments on the 7/28 version of proposed Rule 207.

- Typo on page 4, Section 206.2 - "...the District's new source review rule in the State Implementation " I believe the word "Plan" should be in this phrase. This occurs twice more on page 8, Section 227.2 and page 16, Section 308.3(b)
- Definition of a Major Source from 40 CFR 52.21 has the following language for chemical process plants:

*"( t ) Chemical process plants—The term chemical processing plant shall not include ethanol production facilities that produce ethanol by natural fermentation included in NAICS codes 325193 or 312140;"*

Proposed Rule 207, Section 219.5, #20 leaves out the clarification language for those types of ethanol production facilities. I'm not sure if this was intentional, but might be something to look in to for consistency with the Federal definition.

That's all I had... the rest of the rule looks good.

I'll go ahead and list these on the rule review request form that we send out so you have them officially from us. Again, I wanted to touch bases with you first so there's no surprises.

The following rule, which is scheduled for a public hearing to be held by your District Board on June 23, 2011, was received by us on May 23, 2011, for our review:

Rule 207 Title V – Federal Operating Permit Program

The Air Resources Board staff has reviewed the rule and, based on the information available to us at this time, we have no comments.

The rule was examined by the Stationary Source Division.

If you have any questions, please contact me by e-mail or at the telephone number above.
