Pilot Test Permit Exemption Requirements

The proposed pilot test must meet all the following criteria:

1. The test must be less than 5 days in duration.
2. An emission control device must be used during the testing period unless written approval is granted by the District on a case-by-case basis.
3. The equipment used for testing must otherwise be exempt from permitting requirements as defined in Rule 201, including but not limited to:
 - Rule 201 §112.1 – Internal combustion engine rated less than or equal to 50 horsepower.
 - Rule 201 §112.2 – Thermal oxidizer with a maximum rated heat input of less than 1 MMBtu per hour.
4. Prior pilot testing or SVE operation has not been performed at the site unless written approval is granted by the District on a case-by-case basis.
5. A written proposal must be submitted at least 7 working days prior to the expected test start date.

Information Required for Proposal Review

Date and Time of Test:	
Location of Test:	
Purpose of Test:	
Duration of Test (days and hours per day):	
Contaminants of Concern:	
Expected Emission Rates and Carbon Usage Rates (if applicable):	
System Layout Attached:	Yes / No
Emission Control Device Specifications Attached:	Yes / No
Support Equipment Description Attached:	Yes / No
Laboratory Data Attached:	Yes / No

If upon review the submitted proposal meets the requirements for a pilot test, the District will grant written approval for the pilot test to commence.

Certification

I certify under penalty of perjury that the information provided is true and correct to the best of my knowledge.
